

Lenovo Thinkpad X201 Tablet LCD Replacement

This is a display screen repair guide to remove the screen.

Written By: Peter Gachuki

INTRODUCTION

Use this guide to replace the screen of your Lenovo Thinkpad X201 Tablet.

TOOLS:

- [Spudger \(1\)](#)
- [Phillips #00 Screwdriver \(1\)](#)

Step 1 — LCD

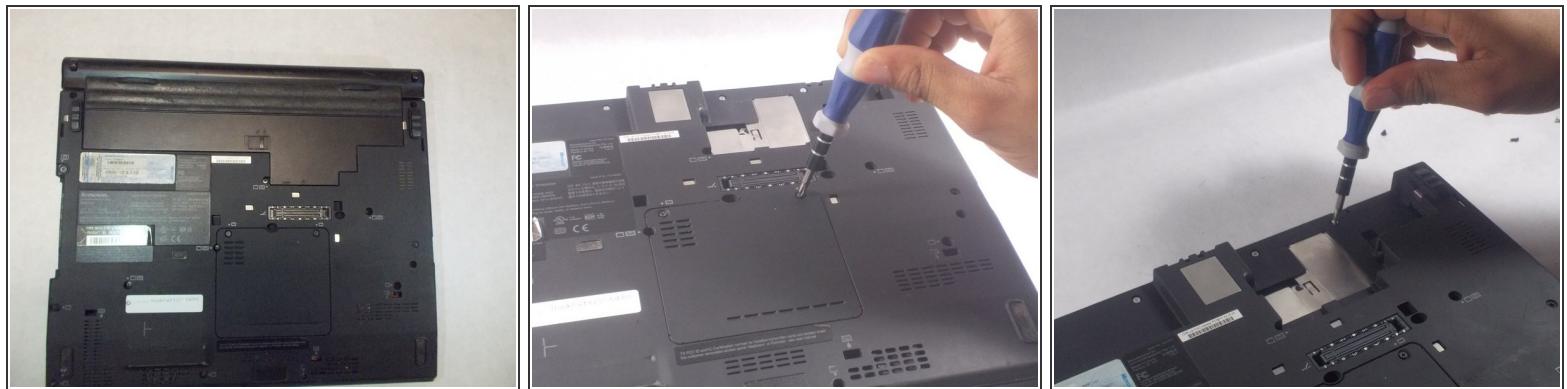

- First you push the lock button on the back of the computer from lock to unlock

Step 2

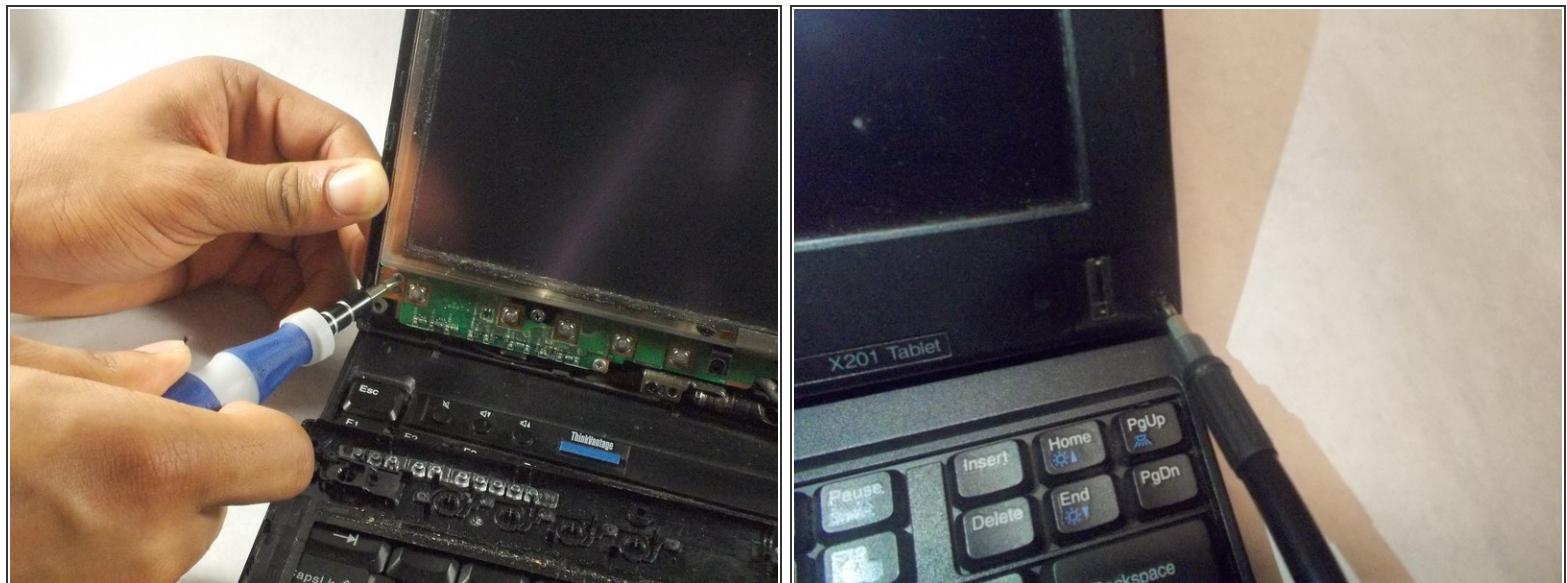

- Then you hold it on unlocked and slide the battery pack out

Step 3

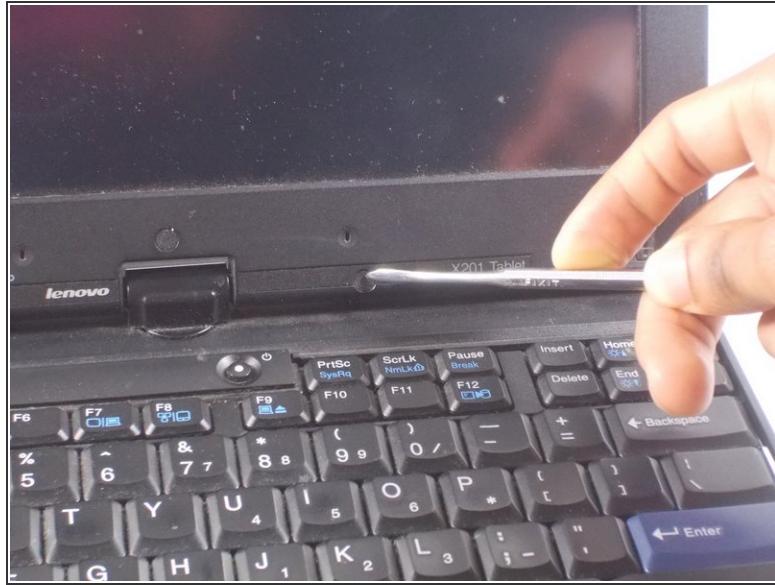

- remove all screw covers above hinges

Step 4

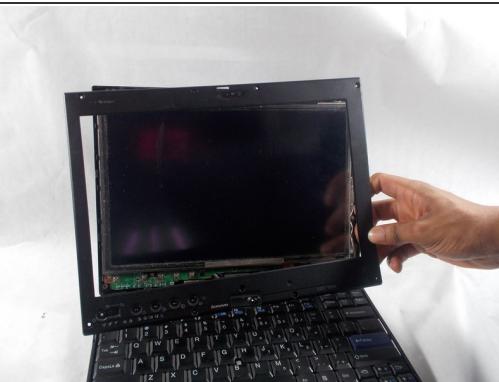

- Unscrew the screws on the front of the LCD screen

Step 5

- Remove additional two screws near bezel screws plus the single logic board screw in the center

Step 6

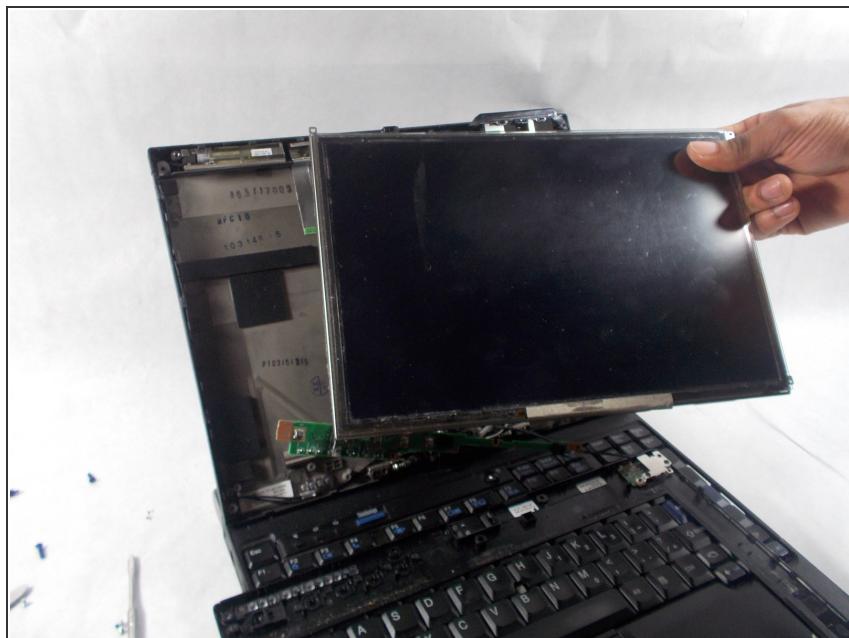

- Gently pry the LCD cover with a flat head screwdriver, and pivot it over the signal cable near the LCD hinges. Pivot over all four corners

Step 7

- Continue to remove screws in front of the LCD cover, make sure all screws in the front are removed

Step 8

- Once all screws are removed, remove the LCD Display but gently peeling back line a sticker

To reassemble your device, follow these instructions in reverse order.
