

# Lenovo Thinkpad X201 Trackpad Replacement

If you want to remove the trackpad this guide will help

Written By: Peter Gachuki

## INTRODUCTION

If the trackpad of your device needs to be replaced, use this guide to remove the trackpad from your device.

---

### TOOLS:

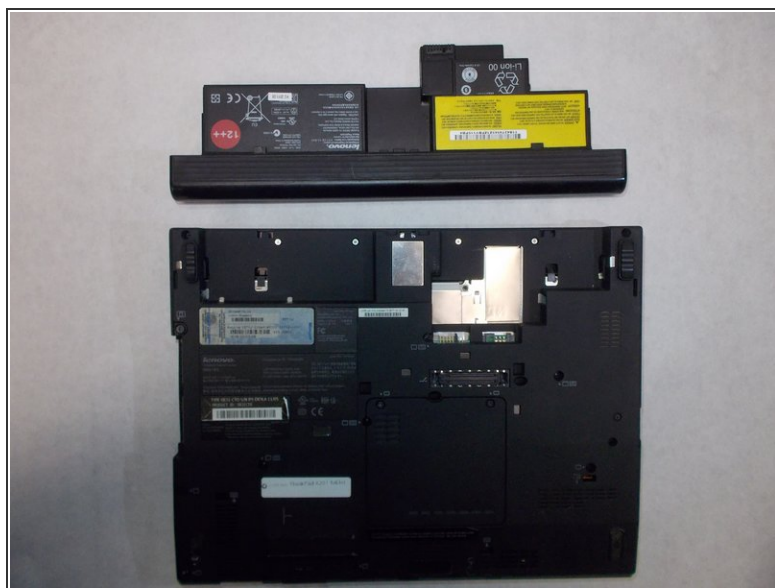

- [Spudger](#) (1)
  - [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — Trackpad

- Remove the battery by sliding this switch to the right.

## Step 2

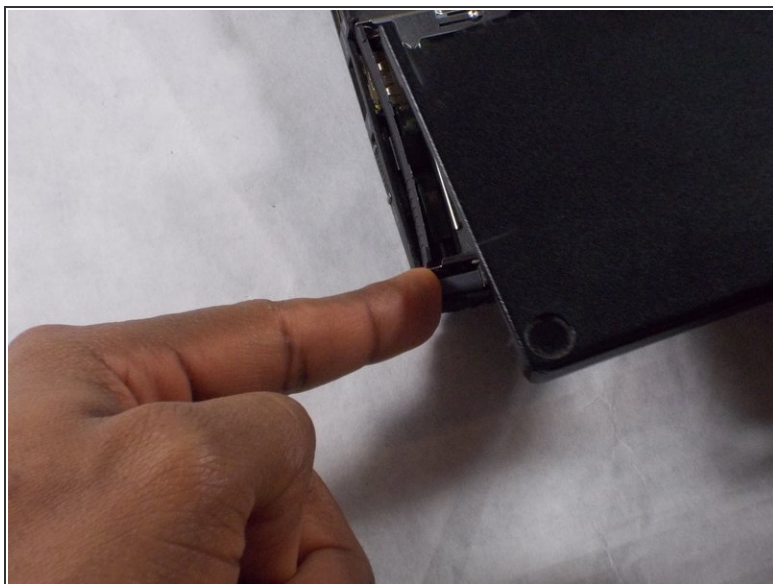

- Slide out the battery.

## Step 3

- Remove all screws on the rear side of the laptop using the Phillips #00 screwdriver.

## Step 4

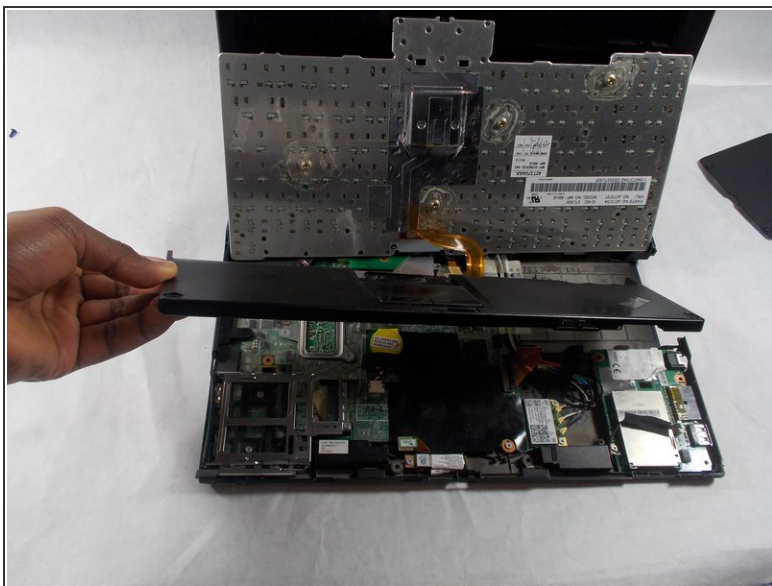

- Locate the sliver bar on the side of the laptop as in the picture here.
- Push the sliver bar downwards.
- The trackpad should pop up.

## Step 5

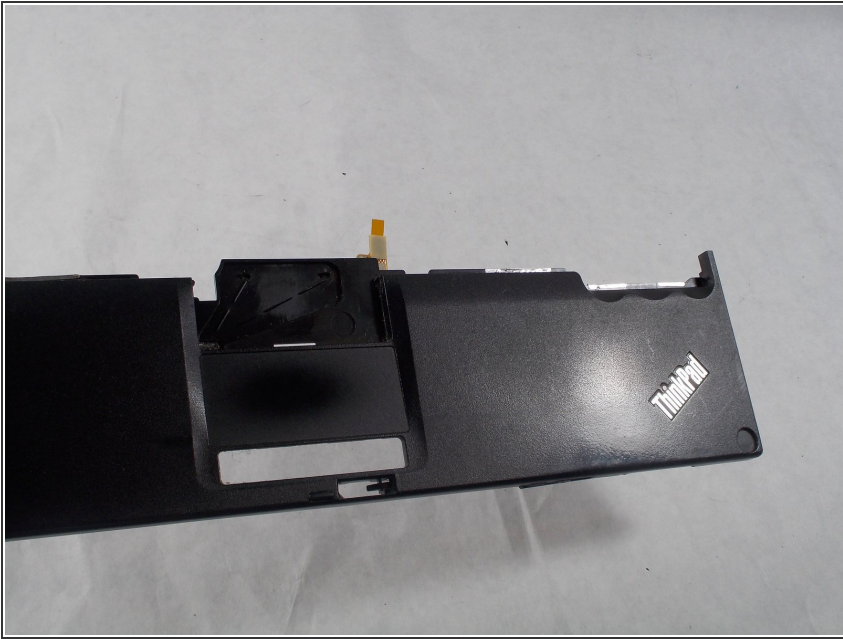

- Push the gray bar down and the trackpad should pop up by itself.
- If not then gently push the bar down while using your other hand to gently pull the trackpad up.

## Step 6

- Finally remove the trackpad.

## Step 7

- Congratulations you have removed the trackpad. You can make sure its clean.

To reassemble your device, follow these instructions in reverse order.
