Step 1 — RAM

- Flip the laptop up side down as shown in the photo.

Step 2
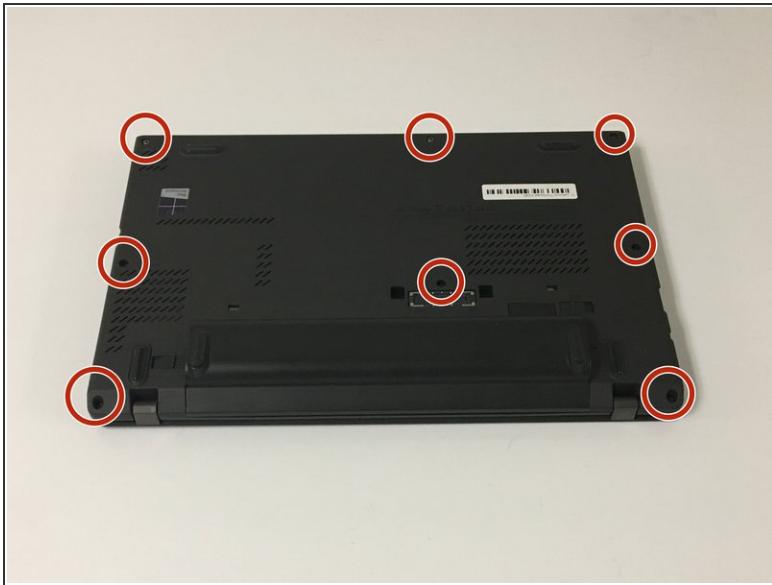

- Remove the 8 0.2mm Phillips screws connecting the back cover to the laptop.

Step 3

- Remove the back cover using the opening tools.

⚠ Gently use the plastic opening tools to prevent scratching your device.

Step 4
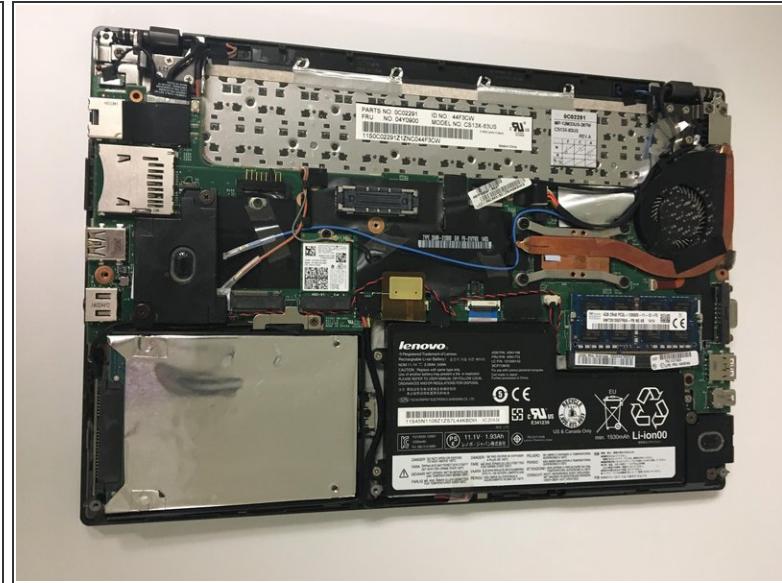

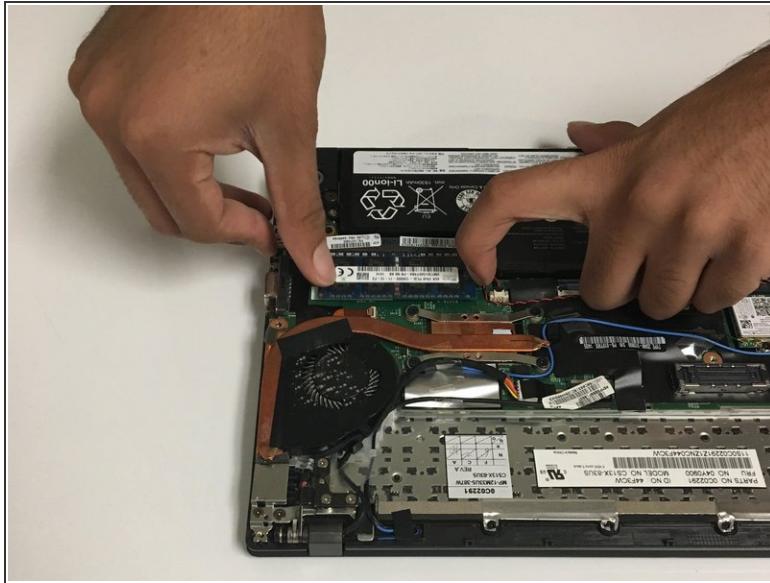

- Remove the RAM stick by carefully popping its holders out of place.

To reassemble your device, follow these instructions in reverse order.
