Lenovo Y70-70 Touch Fan Replacement

This guide will show you how to replace the fan on your Lenovo Y70-70 Touch Laptop.

Written By: Trevor James

INTRODUCTION

This guide will walk you through with replacing the fan of your device. You're going to need to sit down and unscrew a lot of screws to access the fan of your device.

🔧 TOOLS:

- Phillips #0 Screwdriver (1)
- iFixit Opening Tools (1)
- ESD Safe Tweezers Blunt Nose (1)

Step 1 — Back Cover

- Flip the device so the back is facing you.

- Using the Phillips #0 screwdriver, unscrew the fourteen screws from the device.

Step 2
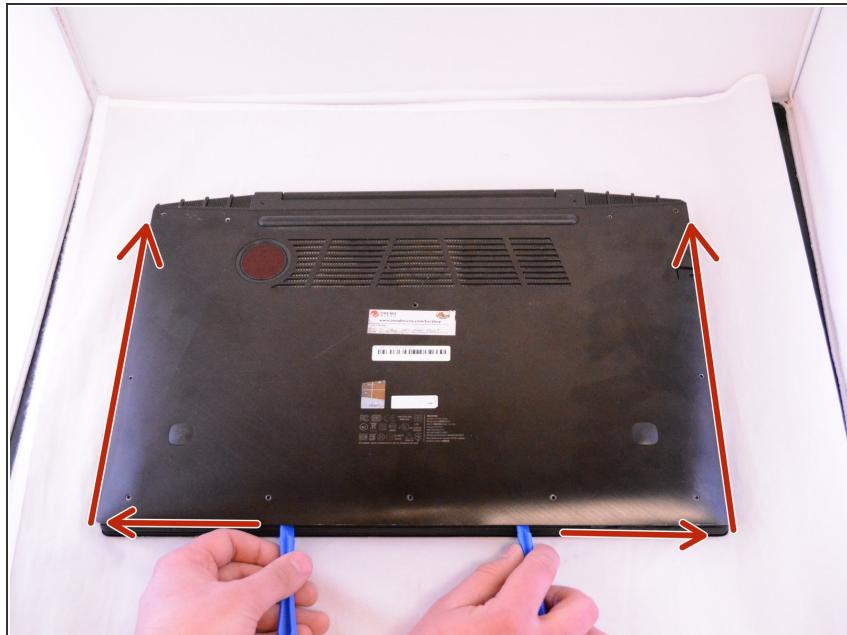

- Use the blue Opening Tool to pry-open the back cover.

- Slide it around the perimeter of the PC freeing the back cover.

- Remove the back cover from the device.

Step 3 — Fan
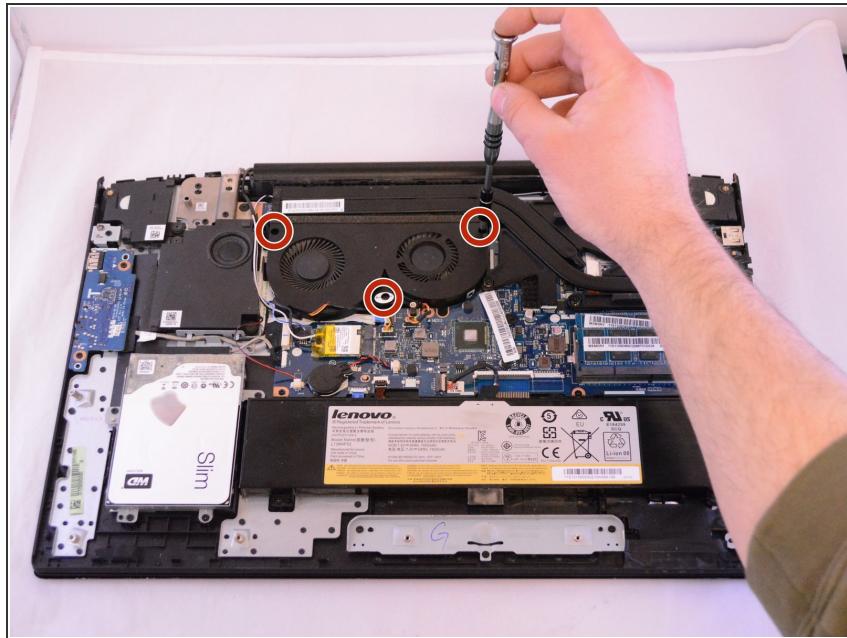

- Using the Phillips #0 screwdriver, remove the three screws connecting the fan to the device.

Step 4
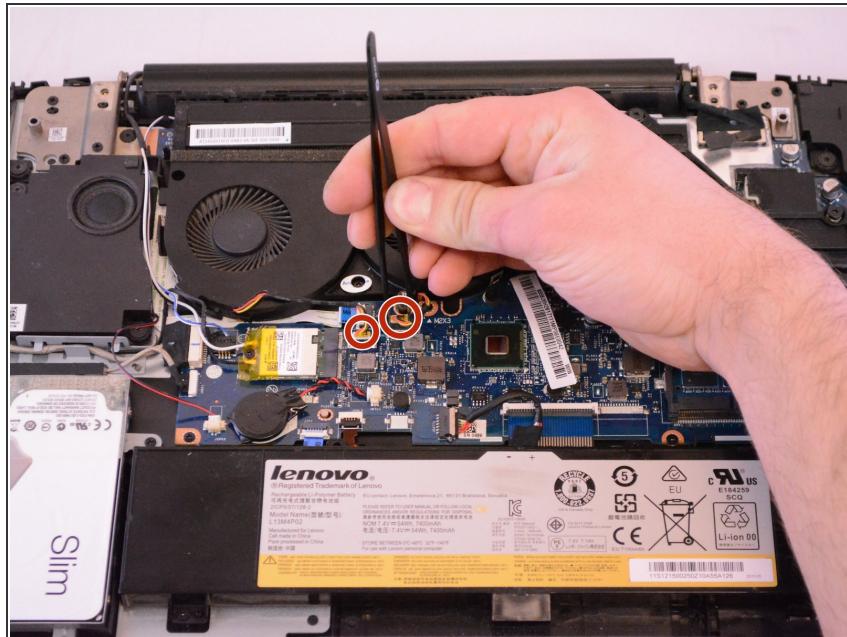

- Using a pair of blunt tweezers, disconnect the fan from the motherboard.

- Remove the fan from the device.

To reassemble your device, follow these instructions in reverse order.
