

Lenovo Yoga 3 Pro Battery Replacement

This guide will show you how to access and remove the battery.

Written By: Federico LopezCasildo Jr

INTRODUCTION

After a certain period of time or number of uses, a battery loses how long it can stay alive after a single charge. This guide shows how to replace the battery on the Lenovo Yoga 3 Pro.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
- [T5 Torx Screwdriver](#) (1)
- [iFixit Opening Tools](#) (1)

PARTS:

- [Lenovo Yoga Pro 3 Replacement Battery](#) (1)

Step 1 — Battery

- ⚠ Before opening your laptop, make sure it is powered off.
- Remove the ten 3.3 mm screws from the base cover using a T5 Torx screwdriver.

Step 2

- Slide the plastic opening tool between the base cover and the frame to pry open the computer.
- Slowly go around the entire perimeter of the computer until all edges are loose.
- ⓘ Make sure the plastic opening tool doesn't go too far into the device.

Step 3

- Remove the panel and place it in a safe location.

Step 4

- Remove the six 3.5 mm screws surrounding the battery using a Phillips 00 screwdriver.

Step 5

- Using either tweezers or your fingers, disconnect the black battery cable by pinching either side of the connector and pulling towards the battery.

Step 6

- Carefully lift and remove the battery.

To reassemble your device, follow these instructions in reverse order.

Take your e-waste to an [R2 or e-Stewards certified recycler](#).
