

Lenovo Yoga 710-14IKB SSD Replacement

Replace the SSD in the laptop.

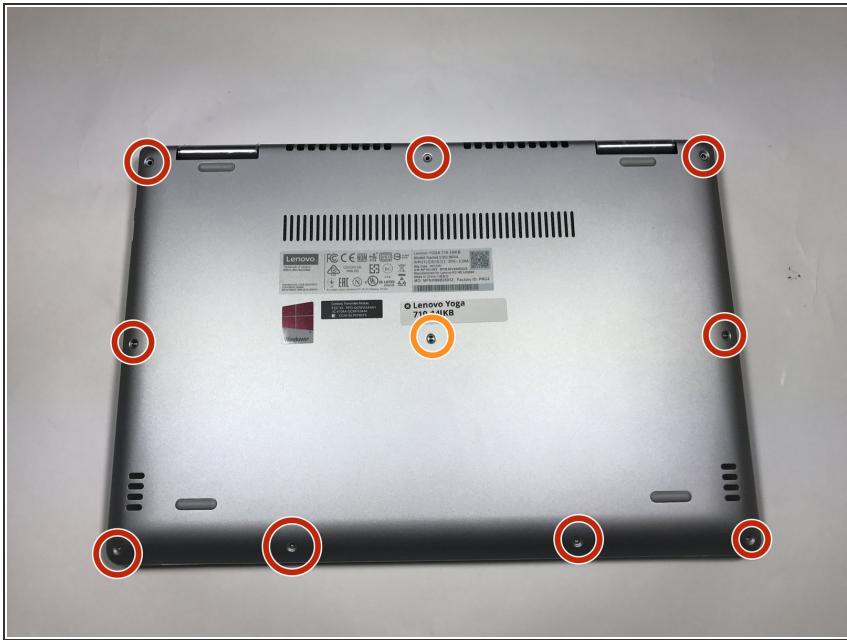

Written By: Grant Doerksen

 **TOOLS:**

- [T4 Torx Screwdriver \(1\)](#)
- [iFixit Opening Tools \(1\)](#)
- [Phillips #00 Screwdriver \(1\)](#)

Step 1 — Back Cover

⚠ Ensure your device is completely OFF before starting this guide.

- Use a Torx T4 screwdriver to unscrew the nine 5 mm screws holding the cover in place.

- Use a Torx T4 screwdriver to unscrew the 8 mm screw in the center.

💡 When, reassembling, make sure not to tighten the screws too much or you may risk cracking the plastic cover.

Step 2

- Use the plastic opening tool to pry the cover up and away from the laptop, starting at one end and working your way around the cover.

💡 The cover is large and flat and made of thin plastic. It cracks easily, so make sure not to pry too hard.

Step 3 — SSD

- Use a Phillips #00 screwdriver to remove the 3mm screw on the SSD.

Step 4

- Use your fingers to lift up the SSD and pull away from the socket removing it from the laptop.

To reassemble your device, follow these instructions in reverse order.
