

Lenovo Yoga Tablet 2 830-F SPEAKER SOUND Replacement

Replacing the Speaker for Lenovo Yoga 2 Tablet.

Written By: Mr. Repair

**TOOLS:**

- [Phillips #00 Screwdriver](#) (1)

**PARTS:**

- [New Item](#) (1)

Step 1 — Buy NEW SPEAKERS

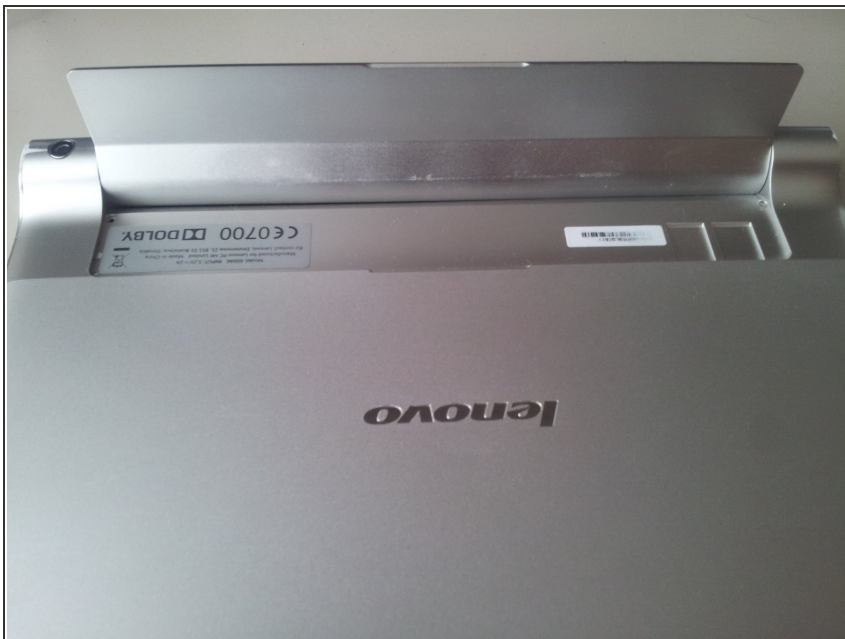

- Buy Speakers

Step 2 — Get tools

- Place a small screwdriver (cross)

Step 3 — Lift the stand

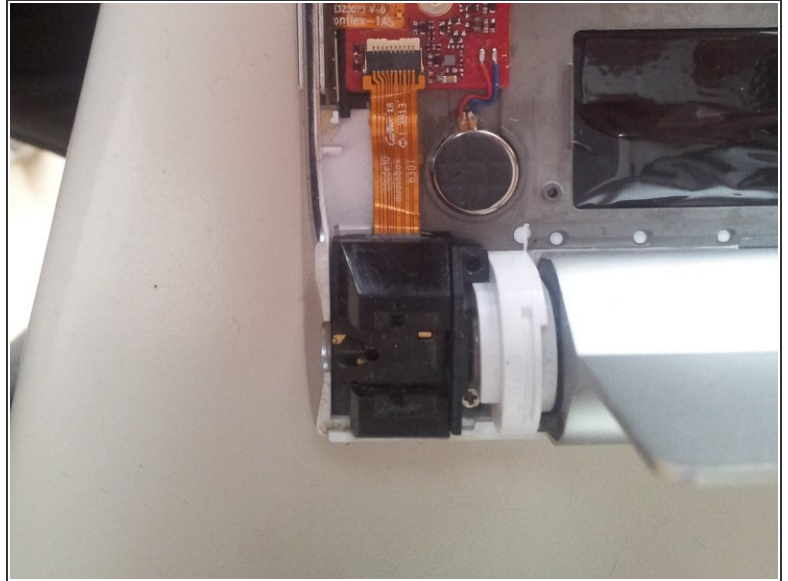

- Switch off the device
- Lift the stand
- Unscrew two screws under the cover (cross)

Step 4 — Open the lid carefully

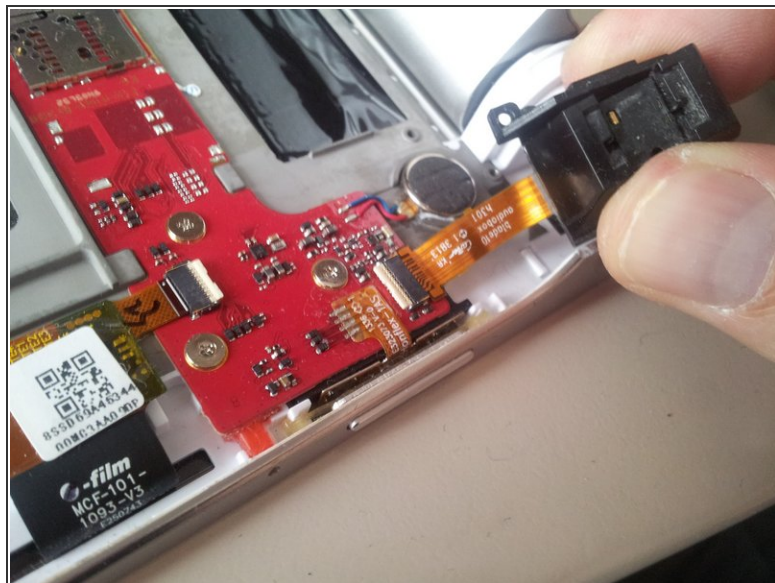

- Carefully lift the lid with a small object (knife, screwdriver).
- The lid is held in place with a bracket in the middle. When you open it, you will hear a click. If necessary, use a narrow object to help.

Step 5 — Remove the speaker

- Turn the speaker screws
- Carefully pull out the speaker plug (cable)
- Remove the defective speaker

Step 6 — Insert new speaker

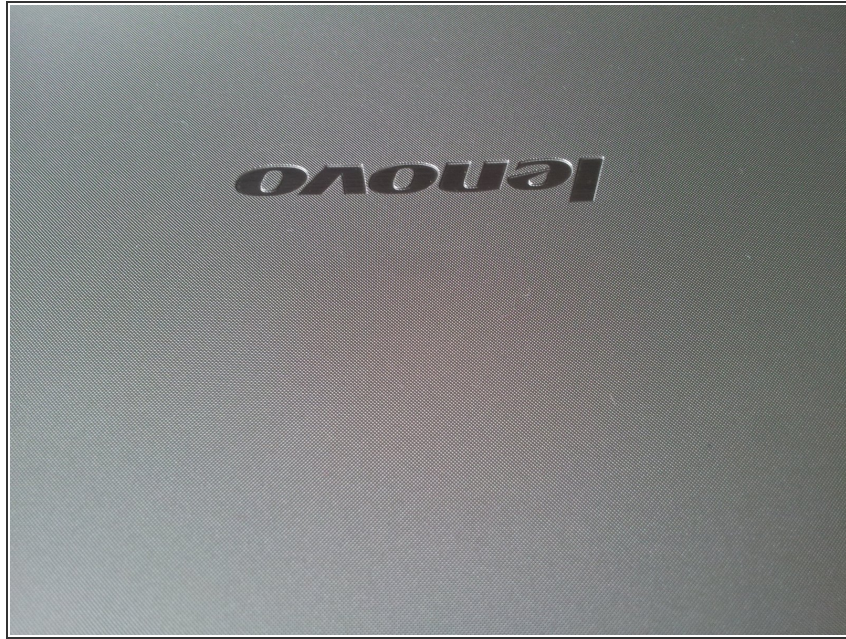

- Connect the new speaker
- Secure the new speaker with the screws

Step 7 — Replace the lid

- Replace the lid
- Make sure that the lid locks completely in place (also in the middle!) (One click can be heard)

Step 8 — Turn screws

- Re-insert the screws
- Turn your device back on
- Speakers should work now

Repeat the steps in reverse order to reassemble your device.
