## Step 1 — Top Case Replacement

- Remove the batteries from the mouse.

- Use a plastic opening tool to peel up the four mouse feet.
Step 2

- Remove the five 5.5mm Phillips #00 screws found underneath the mouse feet.

Step 3

- Pull the top of the mouse off of the bottom half.

  - (i) There's a wire connecting the two halves.
- Unplug the programmable buttons from the motherboard.

Step 4 — Programmable Side Buttons

- Remove the three 5.5mm Phillips #00 screws holding the button assembly to the mouse.

- ⚠ **Do not** remove any of the screws on the circuit board, only the ones holding the plastic assembly in place
