Logitech G910 Keyboard Key Replacement

Logitech G910 Keyboard key can be replaced by the following the next steps.

Written By: Shadi Alzanbagi

INTRODUCTION

This guide will help you remove a key from the keyboard. You'll want to use a plastic or metal spudger to remove the keys from the keyboard.

🔧 TOOLS:

- Phillips #0 Screwdriver (1)
- Metal Spudger (1)

Step 1 — Key

- Unplug the keyboard cord from the computer.

Step 2

- Turn the keyboard over and remove all the screws from the back.

Step 3
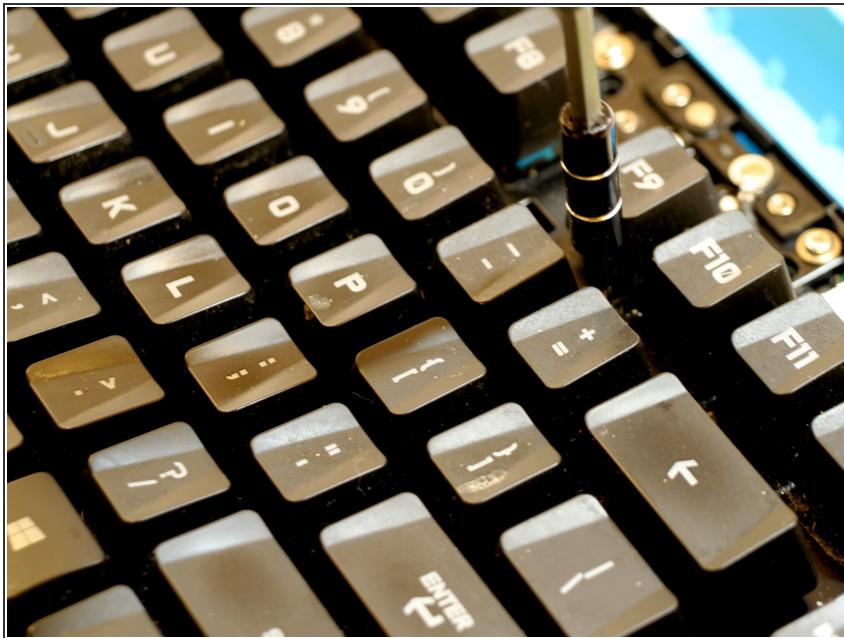

- Turn the keyboard back and remove the screws from the front.

Step 4
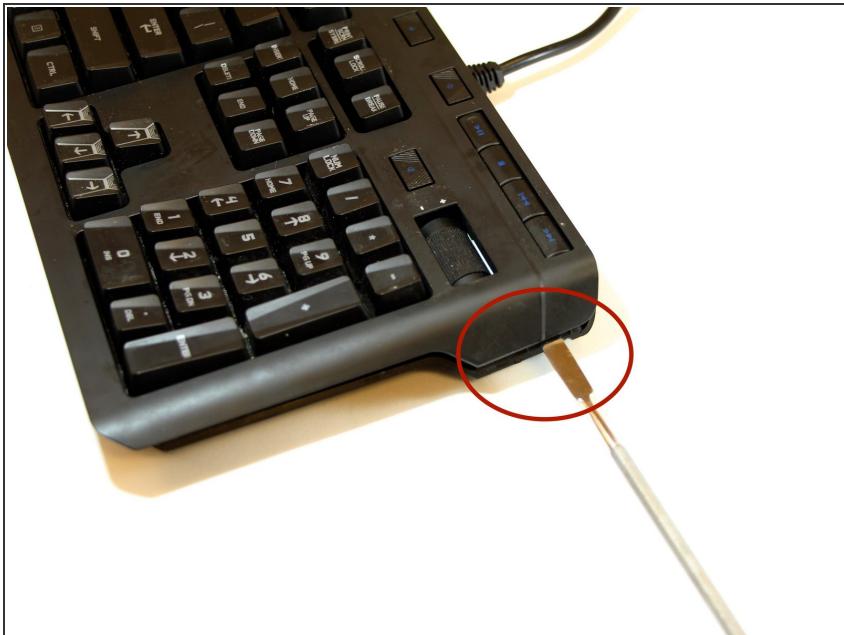

- Using a metal spudger, gently slide it under the cover. Use your hand to add more pressure.

- (i) (Note: be careful to not give too much pressure that could break the keyboard)
