Step 1 — Dock Adapter Cover

- To remove the plastic cover, use the plastic opening tool at the corner of the device.

- Then insert the metal spudger in the opening and slowly move the metal spudger along all sides of the cover.

  ⚠️ **Caution:** Metal spudger can damage the internal components of the device such as the motherboard. Make sure to use the metal spudger carefully to avoid any unnecessary damages.

- Make sure the metal supdger is inserted deep enough as the cover is glued to the device.

 ⚠️ **Caution:** Carefully remove the cover as it is easy to break.

Step 2

- Remove the eight 10.5 mm Phillips #1 screws securing the cover.

- Remove three 5.2 mm Philips #1 screws securing the dock.
