INTRODUCTION

A dead battery can be an inexpensive fix for devices that will not charge, or have a short battery life. This guide will show you how this part can be replaced.

TOOLS:

- Jimmy (1)
- iFixit Opening Tools (1)
- Tweezers (1)

PARTS:

- Logitech UE MegaBoom Replacement Battery (1)

This document was generated on 2019-09-21 10:44:08 PM (MST).

Step 1 — Outer Mesh

- Locate the ends of the speaker.

- Put a plastic opening tool in-between the rubber end and the mesh.

- Apply a upward force in order to pry open the end.

- Apply this procedure to the other side as well.

- ⓘ Will take force.

- ⚠️ Using metal tools may permanently mar your device.

Step 2

- Take the Jimmy and pry up the rubber strip that has the volume buttons on it.

- ⓘ You will hear clicks as it pries up, don't worry.

- Remove all the rubber you pried off.

Step 3

- Use tweezers to lift end of plastic retainer on edge of mesh out of its channel.

- Work the plastic retainer out of the channel all the way around the speaker.

⚠ Be gentle, it is easy to damage the fabric.

- Repeat for other side.

Step 4 — Battery

- Pull up on the top cover which contains the auxiliary and USB ports in order to remove it from the base.

Step 5

- Pull on white strip to remove battery.

To reassemble your device, follow these instructions in reverse order.
