Lorex LW2742 Back Panel Replacement

To remove the Back Panel of your Lorex LW 2742 security system. Prerequisite guide only.

Written By: Alex Kusmierz

🔧 TOOLS:

- [Phillips #1 Screwdriver](#) (1)
- [iFixit Opening Tools](#) (1)

This document was generated on 2019-10-30 02:48:18 PM (MST).

Step 1 — Back Panel

- Remove the battery cover on the back of the LCD monitor by unscrewing one 5mm Phillips #1 screw.

- Slide the battery out of the housing. Lightly tap the opposite end of the monitor if the battery does not come right out.

Step 2

- Remove the four 6mm Phillips #1 screws on the back of the LCD monitor.

Step 3

- Using a plastic opening tool, gently separate the back panel from the front panel, working the tool around the panel to disconnect it.

- Carefully remove the back panel

⚠ The speaker wire is connected to the motherboard so DO NOT rip back panel away from the monitor.

To reassemble your device, follow these instructions in reverse order.
