Step 1 — Back Panel

- Flip the device over so the back is facing up.

Step 2

- Remove the four 5mm screws from the back of the device using a Phillips #00 screwdriver.

- ⓘ There is a screw located under the battery; lift the battery up to access it.
Step 3

- Once all four screws are removed, lift the back off.

Step 4 — Fan

- Remove the three 5 mm screws from the fan with a Phillips #00 screwdriver.

Step 5

- Pull the wire on the bottom left of the fan out of the socket.

- Pull the wire gently; pulling too hard could damage the wire.

Step 6

- Remove the fan.

To reassemble your device, follow these instructions in reverse order.
