

# MSI GT70 MS-1763 Screen Replacement

Step by step guide on replacing the screen on your MSI GT70 MS-1763.

Written By: Cruz Uribe

---

## INTRODUCTION

If your screen is malfunctioning, showing a blue screen then you should follow these steps on our guide to help replace your screen. You will also need a Jimmy and a screw driver to replace the screen.

### TOOLS:

- [Jimmy](#) (1)
  - [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Battery

- Power off the laptop and turn it over.

## Step 2

- Release the safety latches that hold the battery in place. The left latch will stay moved up, while the right side is spring activated and will have to be held.

## Step 3

- While holding up the left latch, use a Jimmy and slide the old battery out of its compartment.

## Step 4 — Screen

- Remove the rubber guards covering the two 3mm screws on the bottom of the screen and remove the screws with a Phillips #0 screwdriver.

## Step 5

- Using a Jimmy, remove the outside cover around the screen.

## Step 6

- Remove the six Phillips #0 screws holding the screen in place.
- Separate screen from the assembly with a Jimmy.
- Remove the display cable from its connector on the back of the screen.
- Remove the screen.

To reassemble your device, follow these instructions in reverse order.
