

# MacBook Pro 13" Retina Display Late 2012

## iSight Camera Cable Replacement

Prereq for the logic board.

Written By: Walter Galan

## INTRODUCTION

Prereq for the logic board.

### TOOLS:

- [Spudger \(1\)](#)

## Step 1 — iSight Camera Cable

- Use the tip of a spudger to push the iSight camera cable connector straight away from its socket on the logic board.  
*(i)* It is recommended to carefully push on both sides of the connector to "walk" it out of its socket.

## Step 2

- Move the iSight camera cable aside.

To reassemble your device, follow these instructions in reverse order.
