

# MacBook Unibody Model A1278 Battery Replacement

Written By: Andrew Bookholt

---

## INTRODUCTION

Replacing the battery on a MacBook Unibody is an easy task.

---

### PARTS:

- [MacBook Unibody \(Model No. A1278\) Battery](#) (1)
-

## Step 1 — Access Door

- With the case closed, place the Unibody top-side down on a flat surface.
- Depress the grooved side of the access door release latch enough to grab the free end. Lift the release latch until it is vertical.

## Step 2

- The access door should now be raised enough to lift it up and out of the Unibody.

## Step 3 — Battery

- ⓘ Be sure the access door release latch is vertical before proceeding.
- Grab the white plastic tab and pull the battery up and out of the Unibody.

To reassemble your device, follow these instructions in reverse order.
