Magellan RoadMate 1200 Speaker Replacement

Written By: Ross Light

INTRODUCTION

The speaker can be easily removed from the back cover.

🔧 **TOOLS:**

- Phillips #00 Screwdriver (1)

Step 1 — Back Cover

- Remove the four rubber caps from the back by using the Phillips #00 screwdriver.

Step 2

- Remove the four screws holding the cover in place by using the Phillips #00 screwdriver.

This document was generated on 2020-03-03 05:28:45 PM (MST).

Step 3
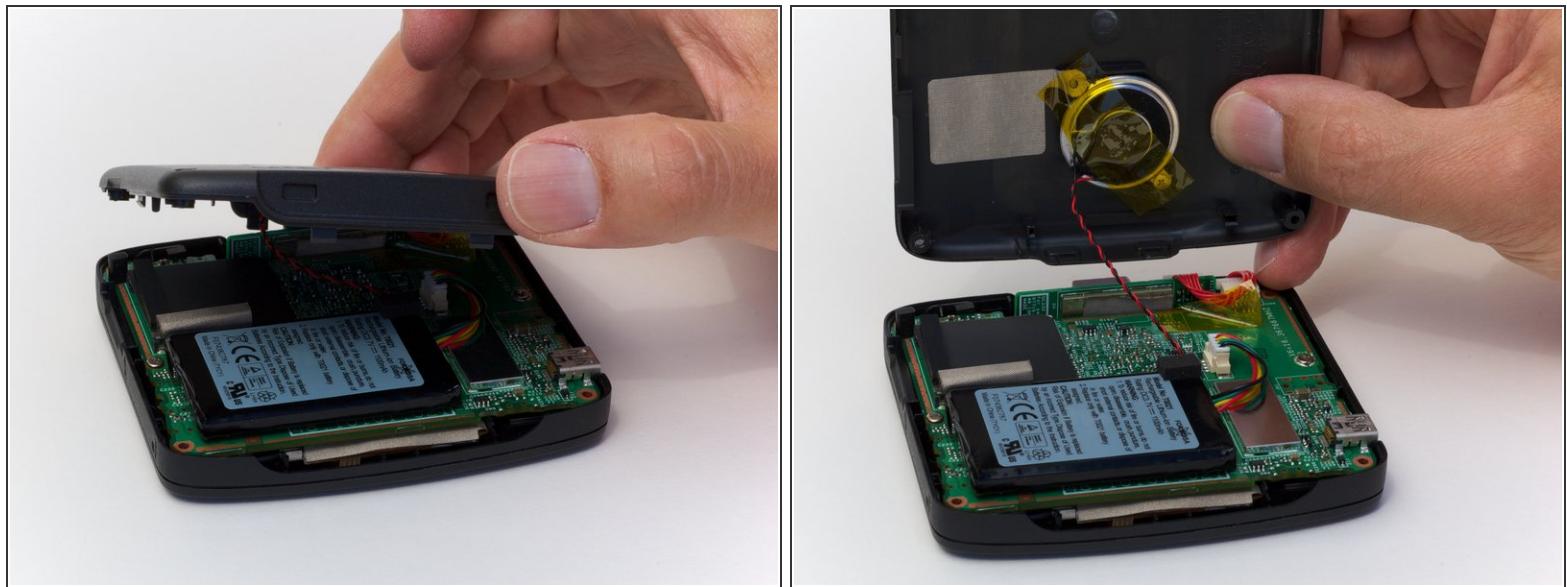

- Remove the back cover from the device by separating the back cover along its seam.

⚠ Slowly lift the cover—the speaker is screwed onto the back cover and is connected to the circuit board.

Step 4
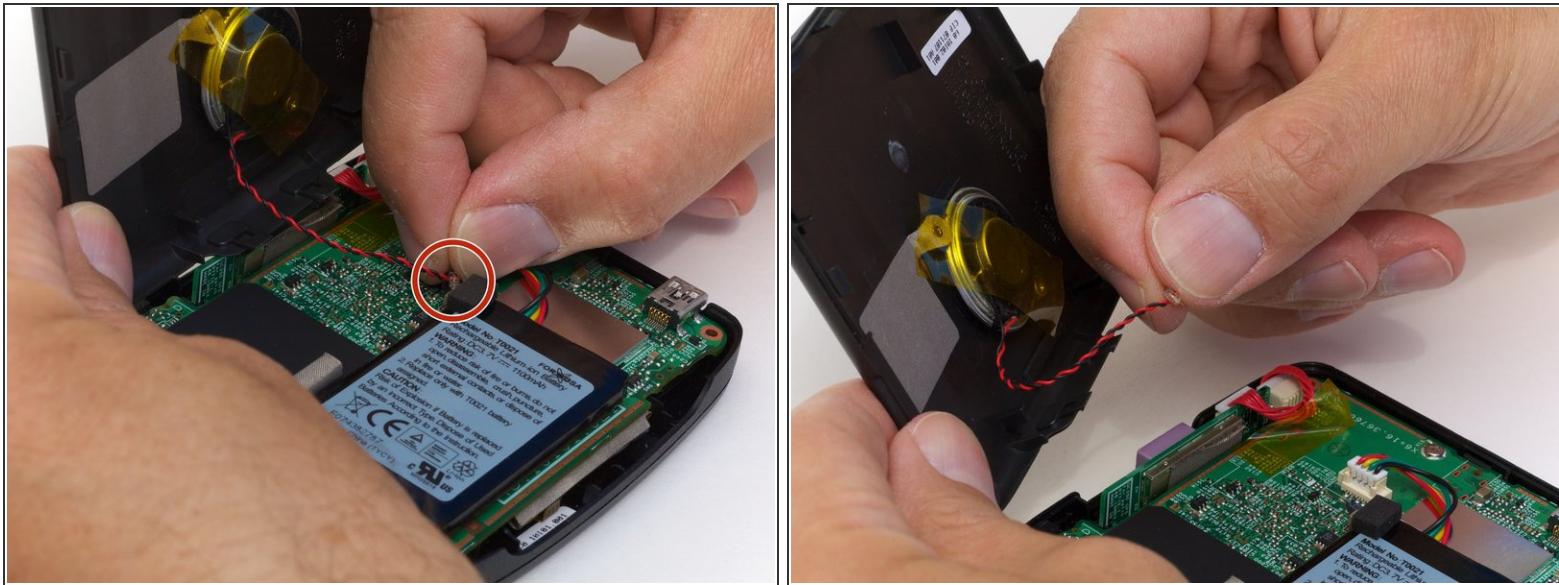

- Pull the speaker cord, horizontally, by its base, away from the motherboard.

- When reassembling, make sure that you plug the terminal in the same way. The black wire should be on the side farthest from the battery.

Step 5 — Speaker
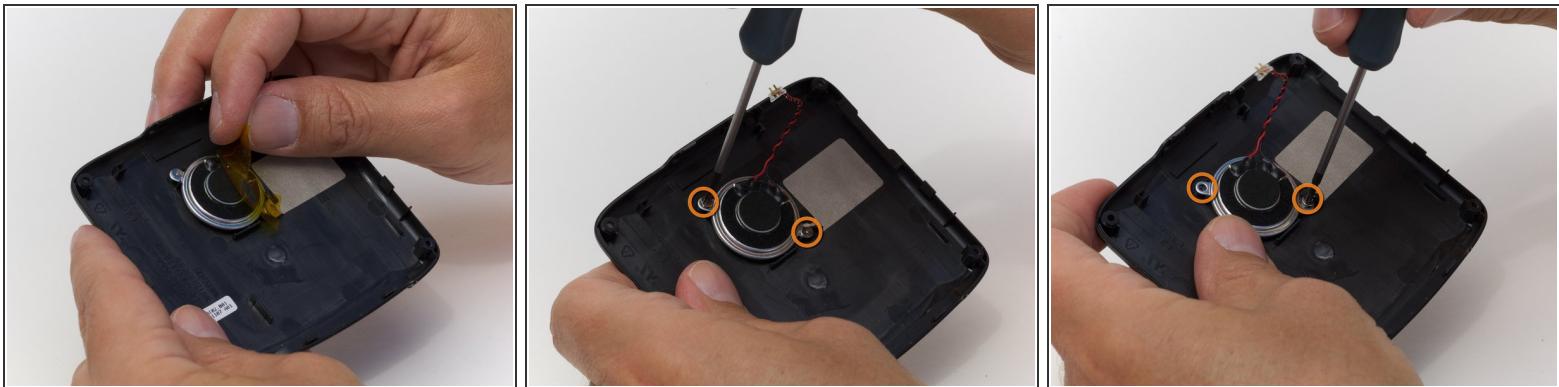

- Once you pull off the back cover, remove the orange piece of tape on the speaker.

- Use a Philips #00 screwdriver to remove the 2 screws holding the speaker to the back casing.

Step 6

- Once the speaker has been unscrewed, remove the speaker from the back casing with your fingers.

To reassemble your device, follow these instructions in reverse order.
