

Magic Bullet NutriBullet Rubber Gasket Replacement

Replace the gasket if worn out or torn to prevent leakage.

Written By: Geary Yu

INTRODUCTION

Did your device leak liquid? Do it seem to not seal as well as before? Replace the gasket to create a new seal and prevent leaking from your cup.

TOOLS:

- [Tweezers](#) (1)
-

Step 1 — Rubber Gasket

- Separate the blending blade lid from the cup.

Step 2

- Using tweezers, grab the gasket at the indented lip which is located on the side of the blending blade.
- Slowly pry the rubber gasket up.

To reassemble your device, follow these instructions in reverse order.
