

# Marshall Kilburn Battery Replacement

How to replace a rechargeable battery pack for the Marshall Kilburn bluetooth speaker.

Written By: Kai Hattan

---

## INTRODUCTION

The rechargeable battery used in this device is one of the components most likely to fail. Fortunately the replacement process is simple and straightforward. Follow this guide for a pain-free battery replacement experience.

### TOOLS:

- [T10 Torx Screwdriver](#) (1)
  - [Spudger](#) (1)
-

## Step 1 — Battery

- Place the unit face down as shown in the picture, exposing the battery cover.
- Remove the two 4.0mm long screws holding the cover on using a T10 driver.

## Step 2

- Remove the battery cover using a fingernail or nylon spudger.

## Step 3

- Remove the battery and unplug the power lead.

To reassemble your device, follow these instructions in reverse order.
