

# Martian Victory Lithium Battery Replacement

This guide will explain the process to replace the main lithium battery in the Martian Victory.

Written By: David Miller

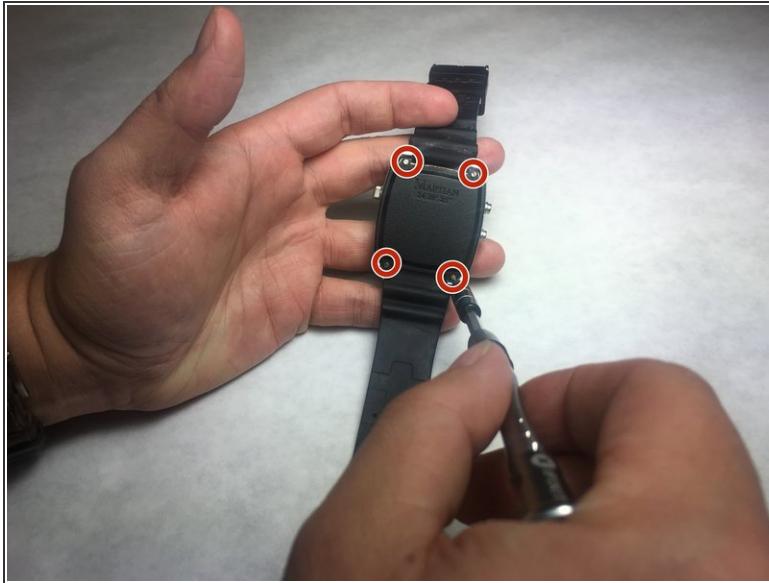

## INTRODUCTION

Detailed images and descriptions will be provided to show the user how to replace the lithium battery.

### TOOLS:

- [1.5 mm Flathead Screwdriver \(1\)](#)
- [iFixit Opening Tools \(1\)](#)
- [Soldering Iron \(1\)](#)

## Step 1 — Back Plate

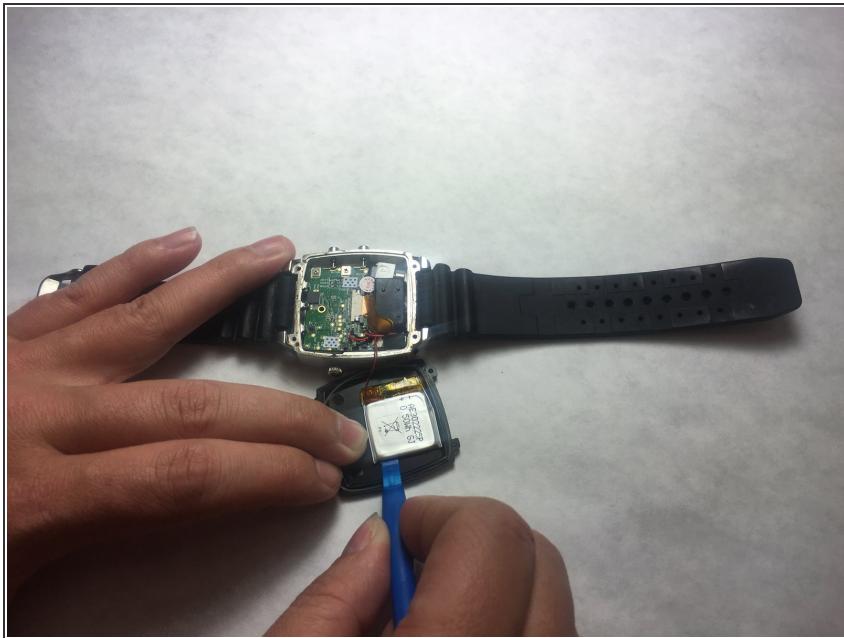

- Unscrew the four 3.4 mm flat head screws

## Step 2

- Carefully lift the back plate off the watch. You will notice a lithium battery and rubber gasket attached to the back plate.

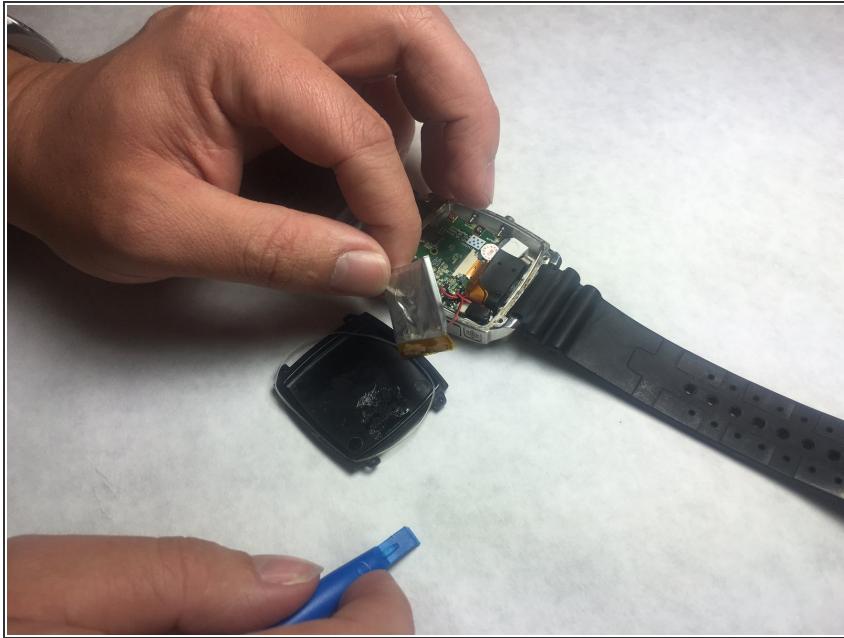

## Step 3 — Lithium Battery

*(i)* If not replacing lithium battery, skip down two steps.

- Using the plastic removal tool, pry the battery from the backing plate. The battery is simply attached with glue.

## Step 4

- Desolder the battery connections from the motherboard. Learn how to solder components [here!](#)

To reassemble your device, follow these instructions in reverse order.
