## INTRODUCTION

The latch is a simple part to replace and must be working in order to use the CD player.

### TOOLS:

- Flathead Screwdriver (1)

## Step 1 — CD Cover Latch

- Open the CD cover so that the latch can be accessed.

## Step 2

- Using a 3/16" flat head screwdriver, gently pry in the corner of the latch and the boombox housing.
- You should see the latch pop out of the housing a little bit.
- Then move to the opposite side of the latch and gently pry there.
- Keep moving back and forth until the latch comes loose and can be removed with your fingers.

## Step 3

- When the latch is removed, it should look like the part in the picture.

To reassemble your device, follow these instructions in reverse order.
