

# Microsoft Zune HD Upper Rear Panel Replacement

Written By: Walter Galan

## INTRODUCTION

Replace the upper rear panel and keep your Zune HD nice and shiny.

### TOOLS:

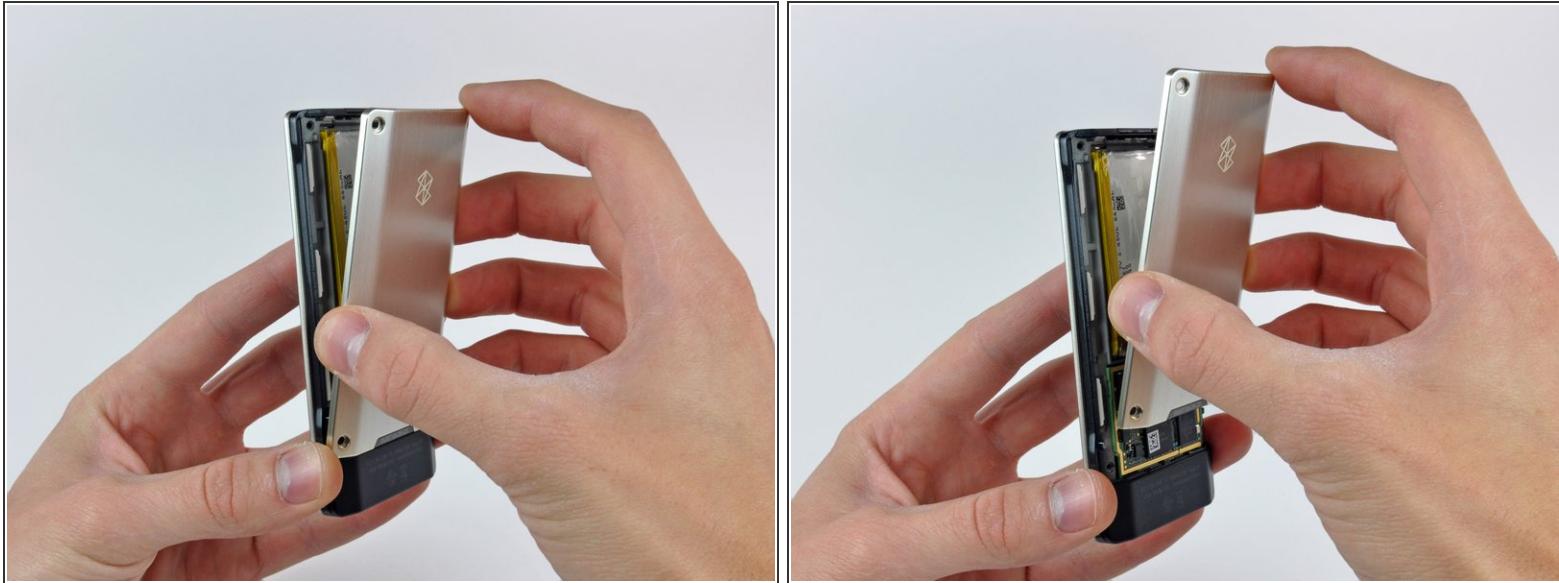

- **Tri-wing Screwdriver** (1)

## Step 1 — Upper Rear Panel

- Remove the four Tri-Wing screws securing the upper rear panel to the inner chassis.

## Step 2

- Slightly rotate the top edge of the upper rear panel away from the Zune.
- Lift the upper rear panel straight up off the black plastic lower rear panel.

To reassemble your device, follow these instructions in reverse order.
