

# Mini 2006-2013 Water Pump Replacement

This video shows how to replace the water pump via the wheel arch, so little extra removed

Written By: jon

A video thumbnail showing the front of a red Mini car with its hood open. The engine compartment is visible, and the front wheel arch is partially removed. A person's hand is visible near the wheel arch. The text 'BMW MINI MK2 2006-2013' is overlaid in white, followed by 'HOW TO CHANGE THE WATER PUMP VIA WHEEL ARCH' in large, bold, white letters. Below that, it says 'NO NEED TO REMOVE HEADLAMP, CROSS BEAM!' in white.

## BMW MINI MK2 2006-2013 HOW TO CHANGE THE WATER PUMP VIA WHEEL ARCH

NO NEED TO REMOVE HEADLAMP, CROSS BEAM!

---

## INTRODUCTION

Only the wheel and liner are removed before removing the mini water pump, so little extra removed, unlike other guides. A bit tricky but possible.

### TOOLS:

- [10mm Socket](#) (1)
  - [Socket Wrench](#) (1)
  - [Flathead Screwdriver](#) (1)
-

## Step 1 — Water Pump

- Insert wisdom here.

To reassemble your device, follow these instructions in reverse order.
