Step 3 — SIM Card
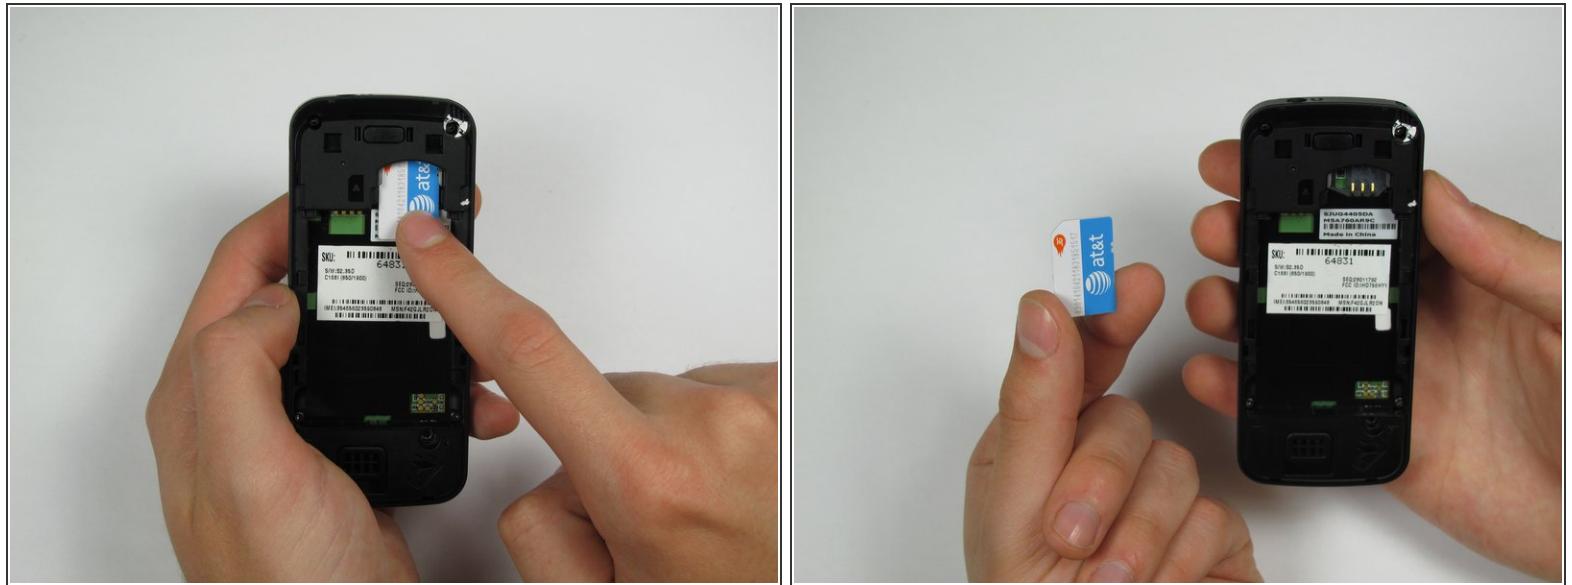

- Press and slide the SIM card down.

- Remove the SIM card.

Step 4 — Front Panel
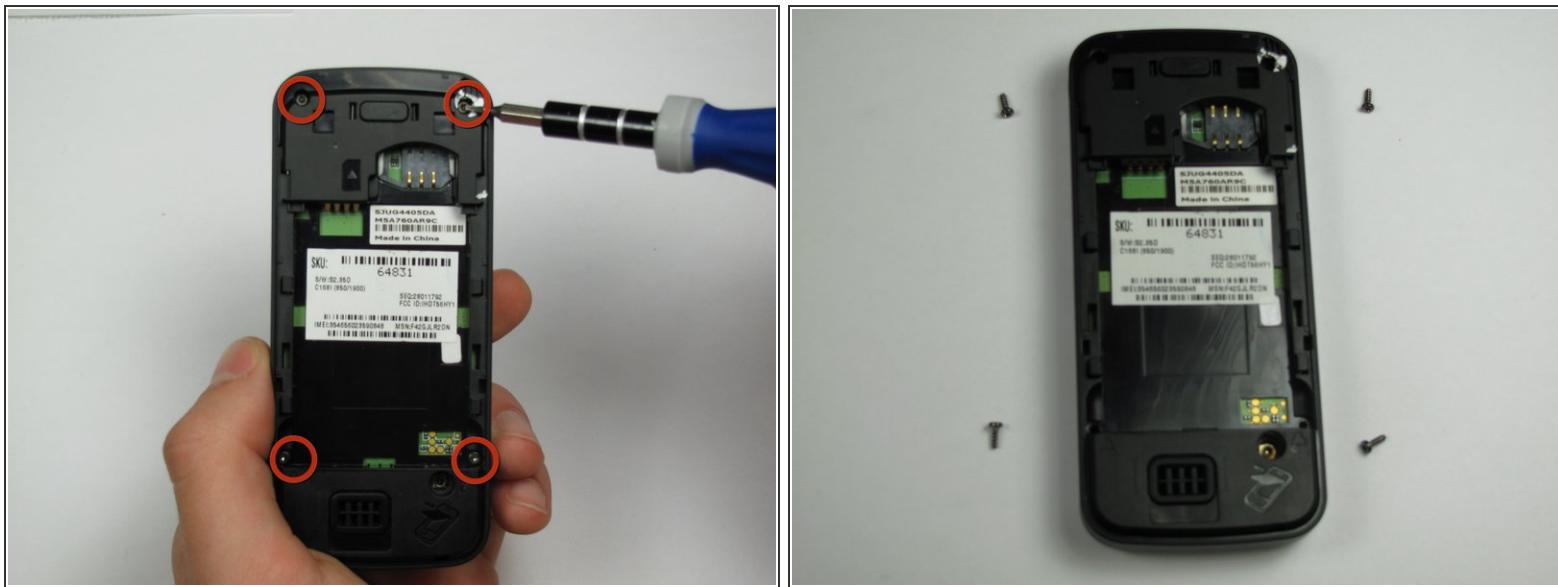

- Orient the phone so its back is facing you.

- Using a Torx T-4 screwdriver, carefully remove the 4 screws located at the corners of the phone.

- (i) Note: If you are using iFixit's screwdriver toolkit, look for the smallest T-screwbit.

Step 5

- Lodge a [spudger](#) in between the front panel and the main frame of the phone.

- Using a good amount of torque, pry the front panel from the phone.

To reassemble your device, follow these instructions in reverse order.
