

Motorola Cliq Battery Replacement

Replace the battery on your Motorola Cliq.

Written By: Tony Tran

INTRODUCTION

If your battery is pooped out, use this guide to replace a dead battery on the Motorola Cliq. There are no small parts to worry about.

Step 1 — Battery

- Turning over your phone, place two fingers on the back cover and apply pressure away from the camera to slide the back cover off.

Step 2

- Pinch the battery pull tab located below the camera, pull it upwards, and remove the battery.
 - ❗ The pull tab may be tucked under the battery.

To reassemble your device, follow these instructions in reverse order.
