Step 1 — Back Cover

(i) Power off your phone before beginning disassembly.

- Insert a fingernail, or spudger, into the notch on the bottom right corner to start separating the phone unit from the back cover.

- Move to the bottom left corner to pry the phone out of the back cover.

Step 2

- Lift the phone out of the back cover.

Step 3 — Battery

- Use a fingernail or spudger to pry at the notch at the bottom end of the battery.

- Lever the battery out of its recess and remove it.
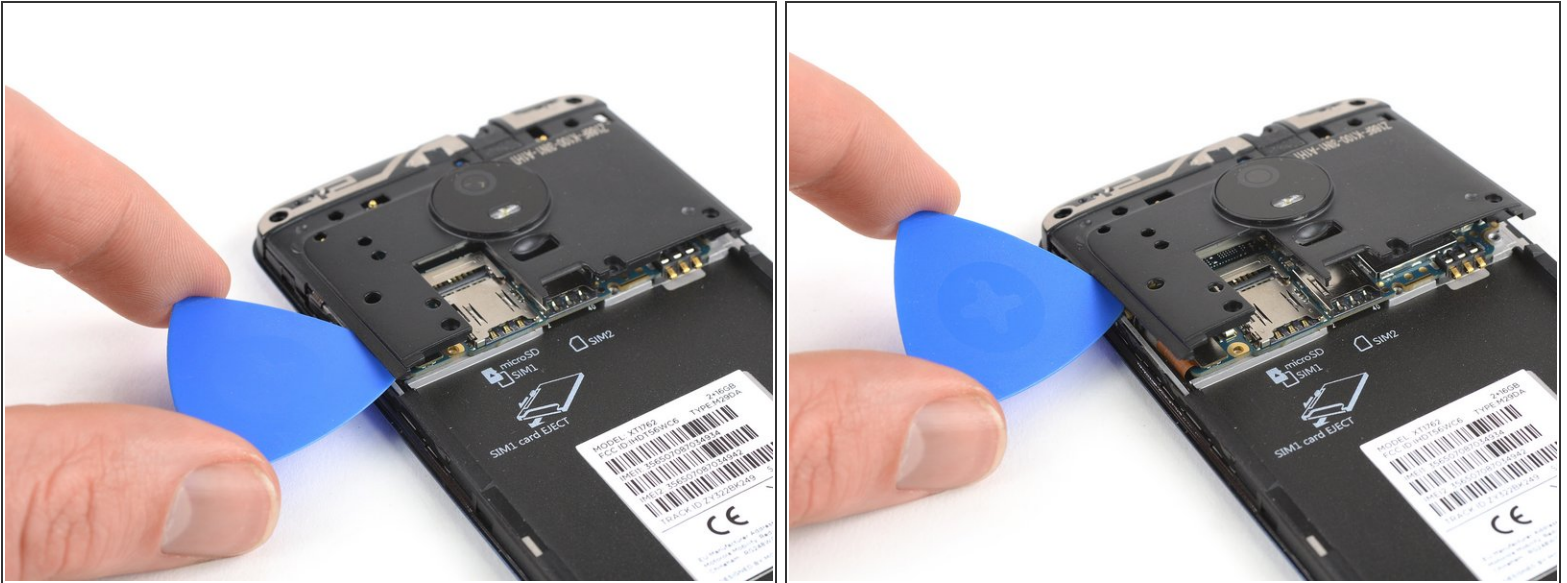

Step 4 — Motherboard Cover

- Remove the seven 3.3 mm Phillips #00 screws.

Step 5

- Insert an opening pick between the cover and the motherboard at the bottom right corner.

- Slide the opening pick upwards to open the plastic clips.
