Step 1 — Remove the SIM Card Tray

- Insert a paperclip or SIM card eject tool into the small hole in the SIM card tray on the right side of the top edge of the phone.

- Press the tool into the hole to eject the tray.

- ⓘ This may require a significant amount of force.

- ⓘ The ejection mechanism is deeper in this phone than others and may require a longer SIM card eject tool. If your tool isn't long enough to reach the mechanism, try using an unfolded paperclip instead.

Step 2

- Remove the SIM card tray.

- ⊠ When reinserting the SIM card, ensure that it is in the proper orientation relative to the tray.

To reassemble your device, follow the above steps in reverse order.

Take your e-waste to an [R2 or e-Stewards certified recycler](#).
