

Motorola Triumph Charger port Replacement

You will learn how to replace your charger port.

Written By: greg

 **TOOLS:**

- [Soldering Iron \(1\)](#)

Step 1 — Charger port

- Follow the steps in the battery guide and in the speakers guide to pull the mother board from the device chassis.
- On the other side of the marker you will find the charger port.
- To remove, you must desolder the four contact points on the motherboard.
- When adding the new charger port, resolder the new charger port to the four contact points.

To reassemble your device, follow these instructions in reverse order.
