

N131WU keyboard replacement.

Written By: Felice Suglia

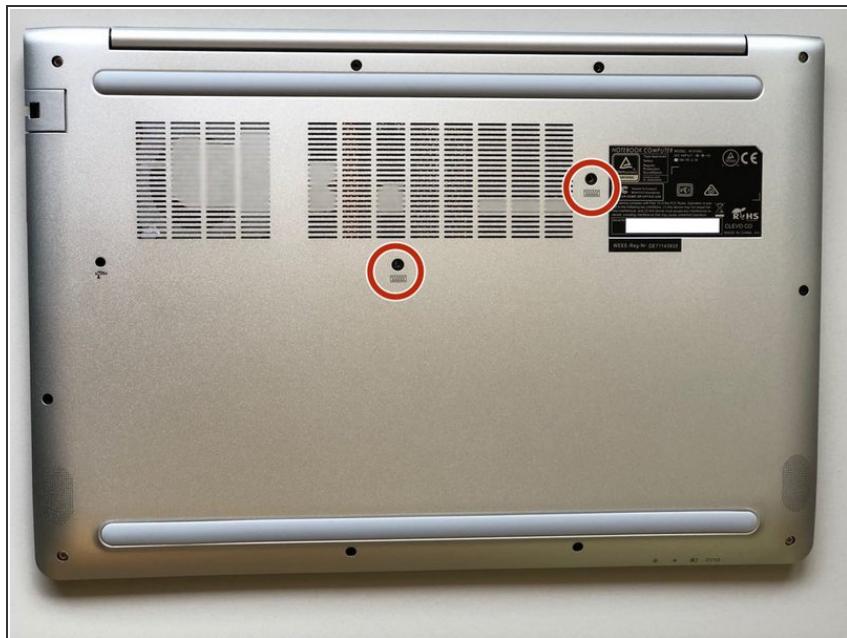

PARTS:

- [New Item \(1\)](#)
- [New Item \(1\)](#)
- [New Item \(1\)](#)
- [New Item \(1\)](#)

Step 1 — Keyboard screws

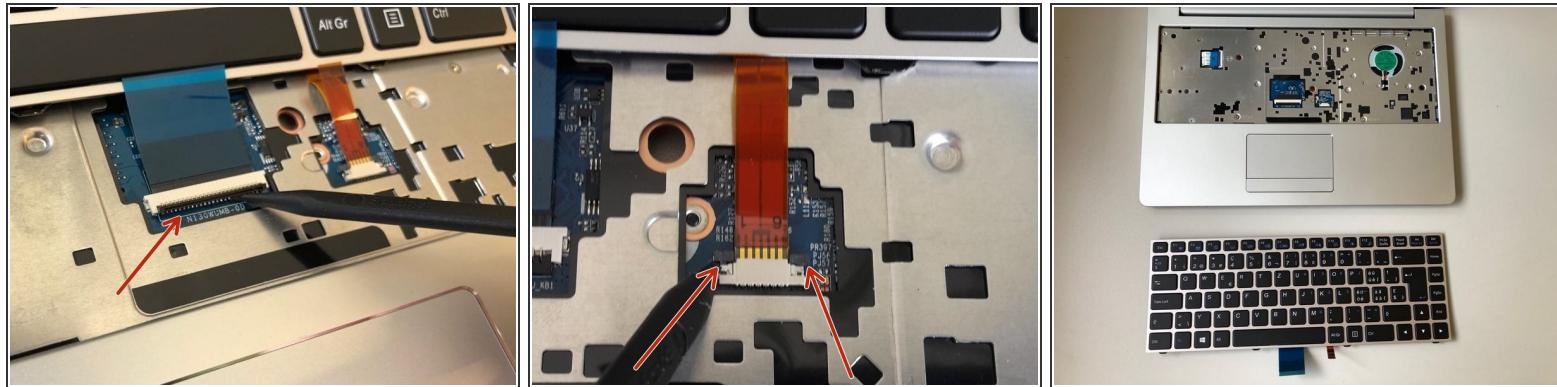

- Remove the two screws that keep the keyboard together.

Step 2 — Unclipping the keyboard

- With a solid and thin object, unclip the keyboard by pushing it through the holes you have unscrewed previously.

Step 3 — Remove the connectors

- With an appropriate tool, carefully remove the blue connector.
- With an appropriate tool, carefully remove the orange connector.

To reassemble your device, follow the steps in reverse.
