Step 1 — Battery
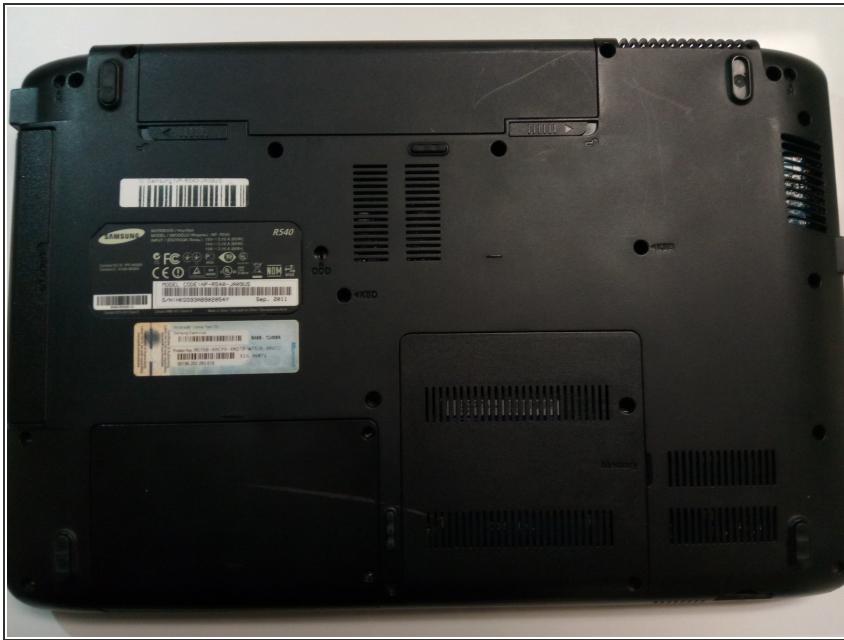

⚠ Turn off laptop before starting.

⚠ Remove power cable before starting.

● Flip the laptop over so that the bottom of the laptop is facing upwards.

Step 2
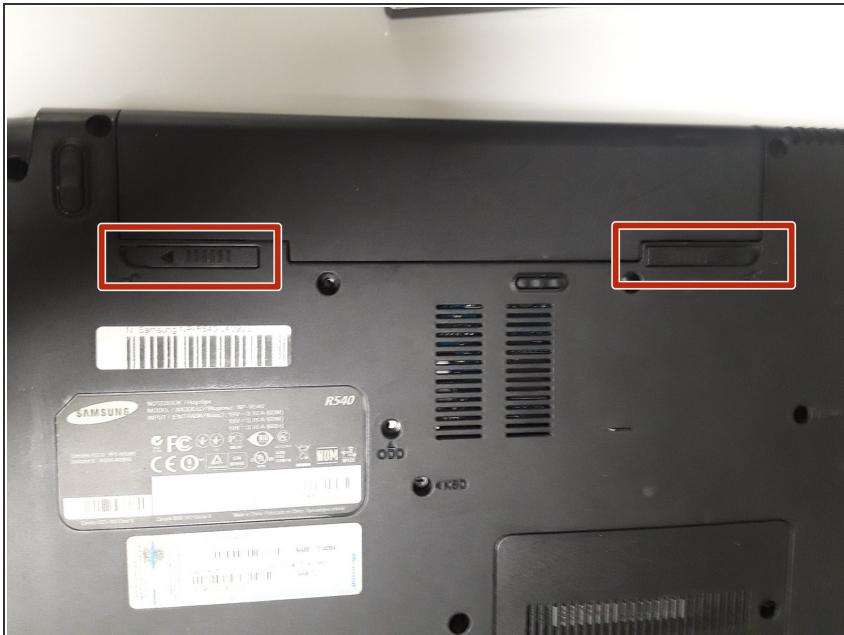

● Pull the two latches outward.

Step 3

- Slide the battery out of the laptop.

Step 4 — Optical Drive

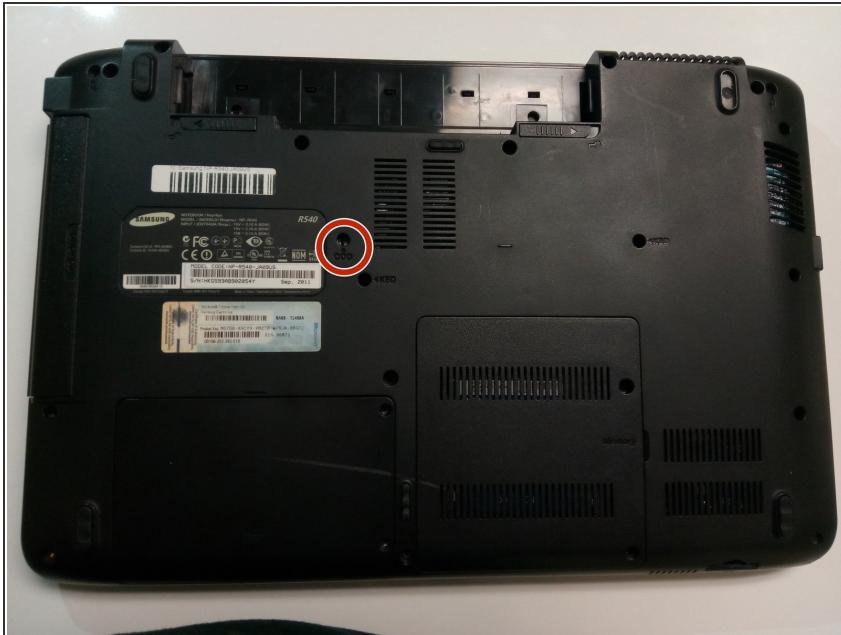

- Remove securing screw with the PH0 head.

Step 5

● Slide the optical drive out and remove it from the device.

Step 6 — Keyboard
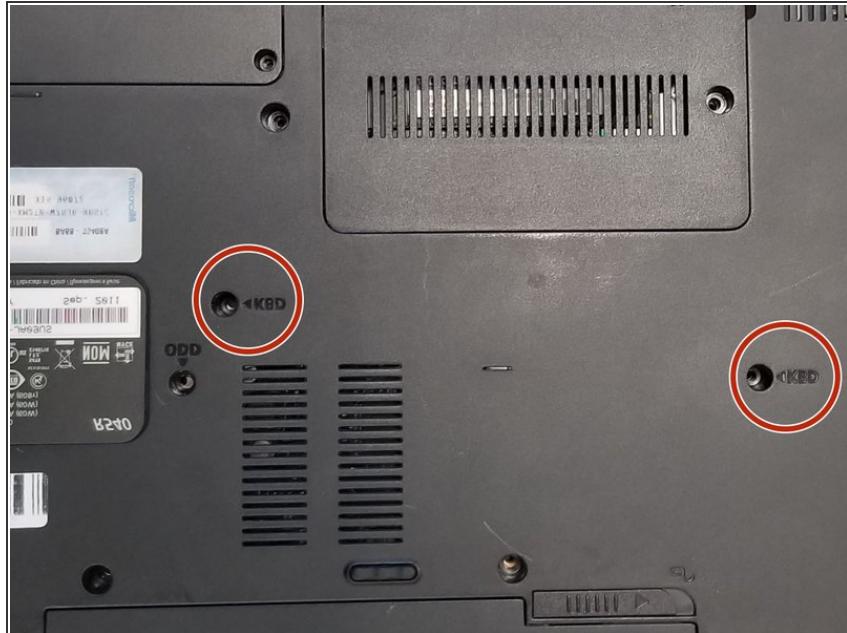

● Remove the two Phillips #0 screws labeled KBD.

Step 7
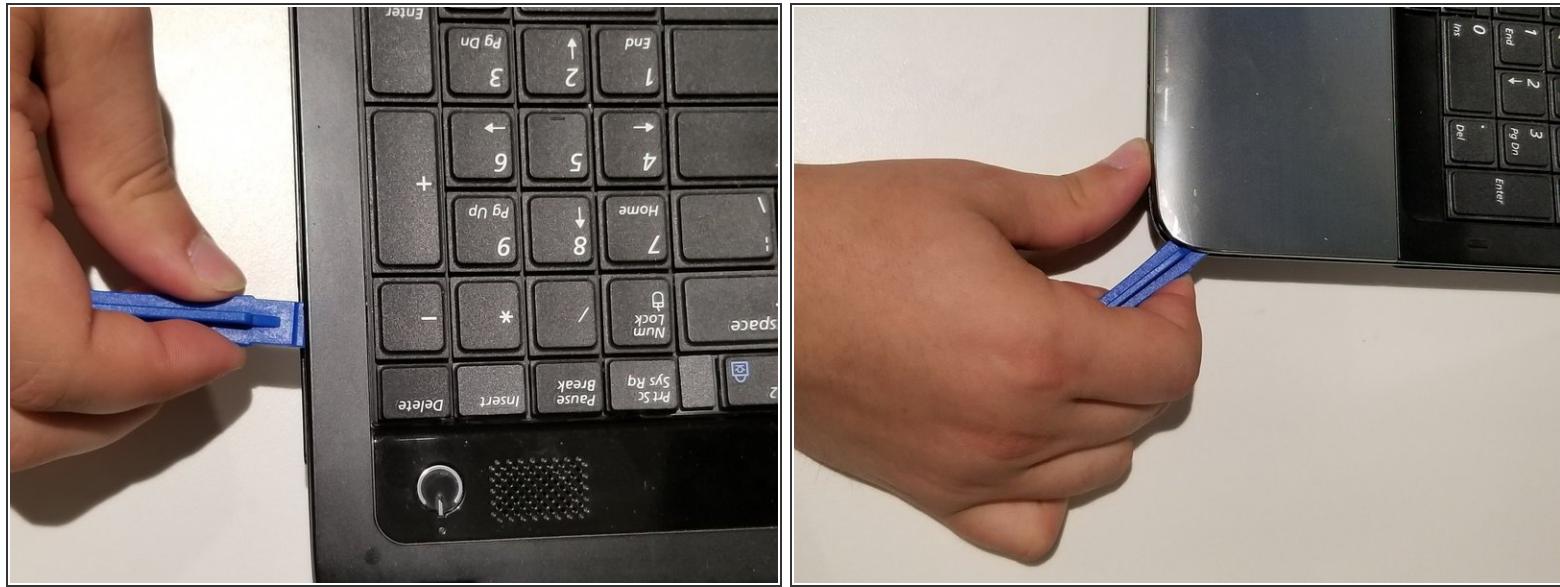

- Open top panel by inserting an Opening Tool and going around the entire panel.

Step 8

- With the panel open, pop the keyboard out with your fingers or an opening tool.

⚠️ Make sure to pry the metal keyboard base and not the keycaps.
