## INTRODUCTION

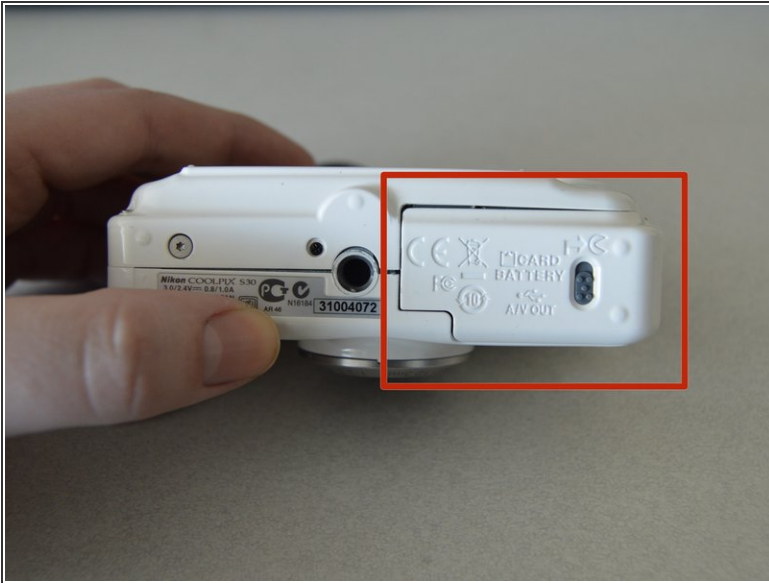

If your camera won't turn on you may need to replace its batteries. The only requirement for this guide is two AA batteries.

### PARTS:

- [AA Batteries](#) (2)
-

## Step 1 — Batteries

- Slide the battery cover to the right.
- The hinge is on the left side of the cover which will allow the cover to stay attached.

## Step 2

- Slide the second cover (yellow) to the right (similar to the outer cover). This will allow the batteries to be exposed.

### Step 3

- Remove the batteries by gently tipping the camera.

To reassemble your device, follow these instructions in reverse order.
