

Nintendo Wii U Pro Controller Teardown

Travel into the Controller.

Written By: Frederic Morelli

 **TOOLS:**

- [Phillips #000 Screwdriver \(1\)](#)
- [Spudger \(1\)](#)

Step 1 — Back panel.

- With the PH000 screwdriver get back the rear front.

Step 2 — Battery off.

- Get back the battery with a tool like a spudger.

(i) The battery is not stucked.
