INTRODUCTION

The front plate has to be removed before the keypad can be reached. No tools are required.

Step 1 — Front Plate

- Pull up on both of the clips near the bottom of the phone as shown.
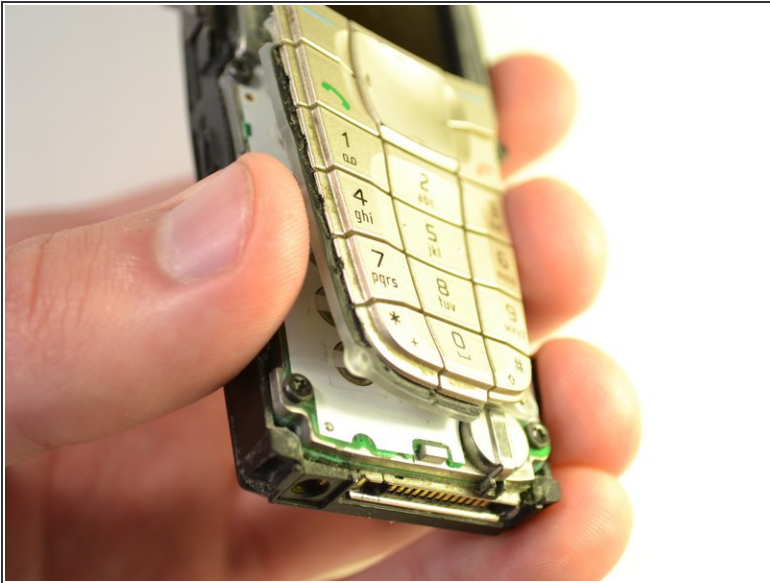

- Lift off the front plate.

Step 2

- The keypad and LCD screen are revealed.

Step 3 — Keypad Buttons

- Separate the keypad from the phone and place aside.

- Wipe off any excess dust from where the keypad was attached to the phone.

Step 4

- Lift up on the button to remove it.
