

Nokia Lumia 505 Teardown

Teardown !! this guide will teach you how to disassemble your phone :)

Written By: Ramiro diaz

INTRODUCTION

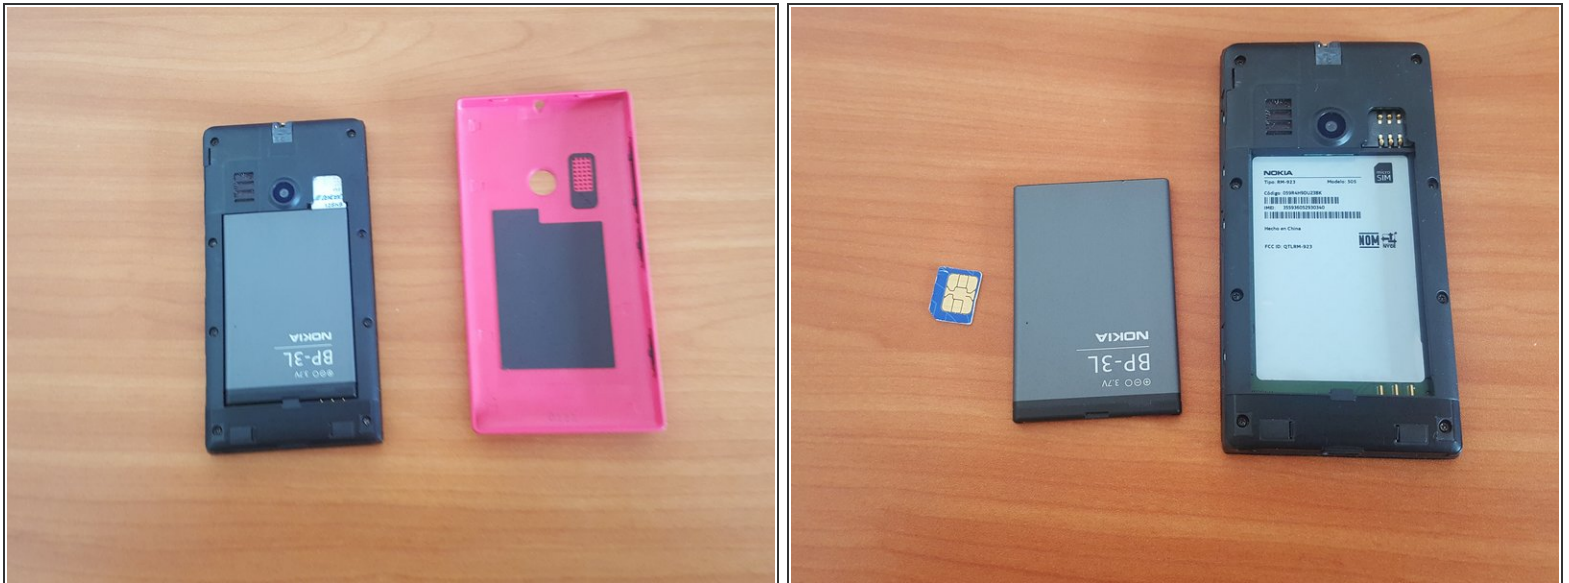

Teardown !! this guide will teach you how to disassemble your phone :)

TOOLS:

- [T5 Torx Screwdriver](#) (1)
 - [iFixit Opening Tools](#) (1)
 - [iFixit Opening Picks set of 6](#) (1)
-

Step 1 — Remove back cover

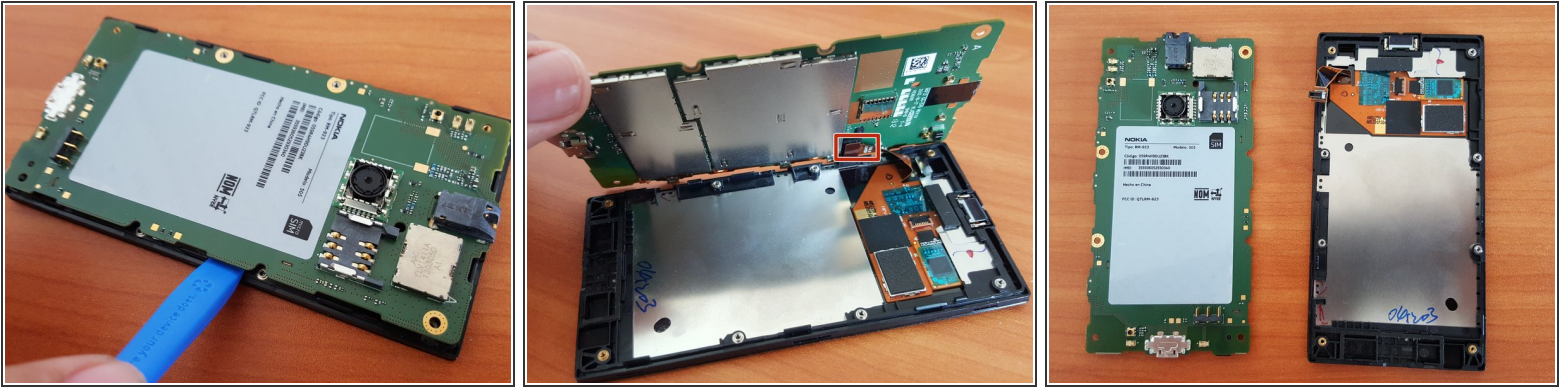

- Remove the back cover
- Remove the battery and the sim card

Step 2

- Remove the 8 Torx T5 screws
- Insert a guitar pick between the frame of the phone
- You have to pry until the frame separates

Step 3 — Motherboard

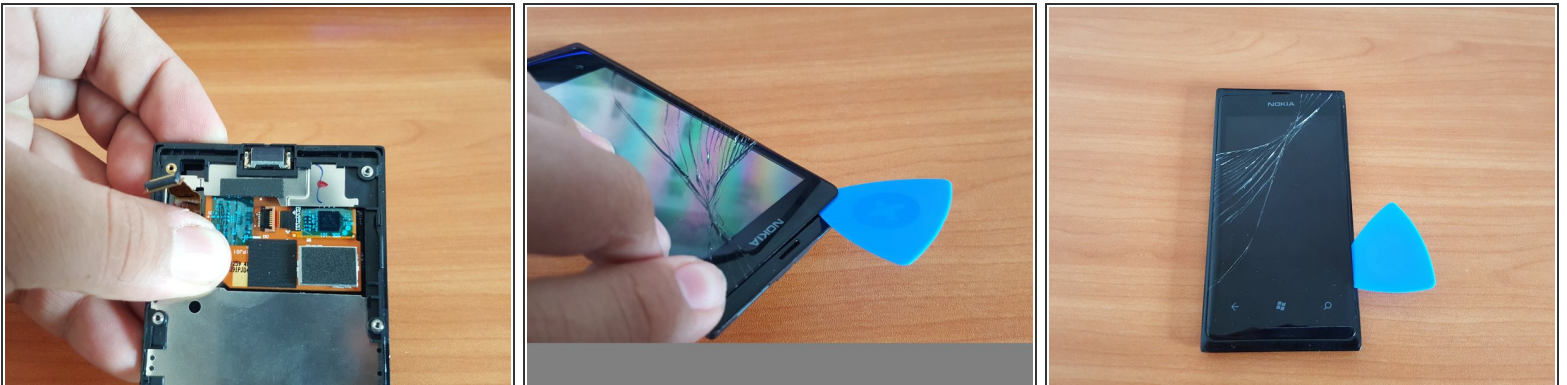

- Pry on the right side to remove the Motherboard

⚠ Do not remove it from the whole as it is still connected to the screen

- remove the cable by pushing it down

Step 4 — screen

- to remove the screen we will have to push it from the inside out
- since we push it, a space will be created between the screen and the frame, there we will put a guitar pick
- the next thing is to move the pua around the frame to separate the screen

Step 5 — Ready

- Ready
