INTRODUCTION

This guide will walk you through the process of opening the Back Panel to your Nvidia Shield Tablet K1.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Back Panel

- Starting at the Micro SD Card Slot and using the blue plastic opening tool, begin to maneuver the tool around the edges while applying light pressure to lift the panel upwards.

Step 2

- ☑ There are clips holding the back panel to the rest of the case. You must apply some force to lift the back panel off.

- Continue lifting up the panel all the way around the edges of the tablet.
- Once all of the panel clips are unfastened, gently remove the back panel.
