

# OnePlus 5 Screen Assembly Replacement

This guide will walk you through the steps you need to take in order to replace your OnePlus 5 AMOLED screen with assembly.

Written By: Jose Velazquez

# INTRODUCTION

For the official iFixit guide, [follow this link](#).

This guide takes some time to complete and will not void your OnePlus 5's warranty. It is recommended to store the screws and parts together with their corresponding step in the guide to lower the chance of lost parts. No special skills are required for this guide.

## TOOLS:

- [Phillips #00 Screwdriver](#) (1)
- [Tweezers](#) (1)
- [T2 Torx Screwdriver](#) (1)
- [Suction Handle](#) (1)
- [Spudger](#) (1)
- [iFixit Opening Tools](#) (1)

## PARTS:

- [OnePlus 5 Screen](#) (1)

## Step 1 — Screen with Assembly

- Remove the seven 1mm Phillips #0 screws by rotating screwdriver counter clockwise.
- Remove the earpiece speaker connector located on the top of the motherboard using a nylon spudger by prying underneath it.
- Remove the LCD screen connector located on the bottom of the motherboard using a nylon spudger by prying underneath it.
- Disconnect the antenna wire located on the right side of the motherboard using a nylon spudger by prying underneath it.

**i** The antenna wire will be clipped onto the motherboard so make sure it is fully unclipped before removing the motherboard.

## Step 2

- Remove the motherboard by gently pushing the spudger underneath upper right hand corner of the motherboard and prying it out.

To reassemble your device, follow these instructions in reverse order.
