INTRODUCTION

Use this guide to replace a faulty microphone unit in your Oregon Scientific Meep! X2 tablet.

TOOLS:

- **Tweezers (1)**
- **Soldering Iron (1)**

Step 1 — Rear Casing

- Remove the orange covers from the left and right sides of the device by sliding up against the tabs.

Step 2

- You can remove the rear casing by unscrewing all six phillips #00(3.5mm x 4.5mm)screws from the left and right side of the device.

Step 3

- Use the plastic opening tools to undo the clips around the edges of the device.

Step 4 — Microphone

- Use your tweezers to gently remove the microphone from the slot in the casing.

Step 5

- Unsolder the microphone unit from the motherboard using the soldering station.
- ☒ In the case of screen or screen sensor replacement, disregard desoldering steps.

To reassemble your device, follow these instructions in reverse order.
