Oster 16-Speed Blender Container Replacement

This guide will show you how to remove the container in order to replace it in the case of a crack in the container.

Written By: Dana
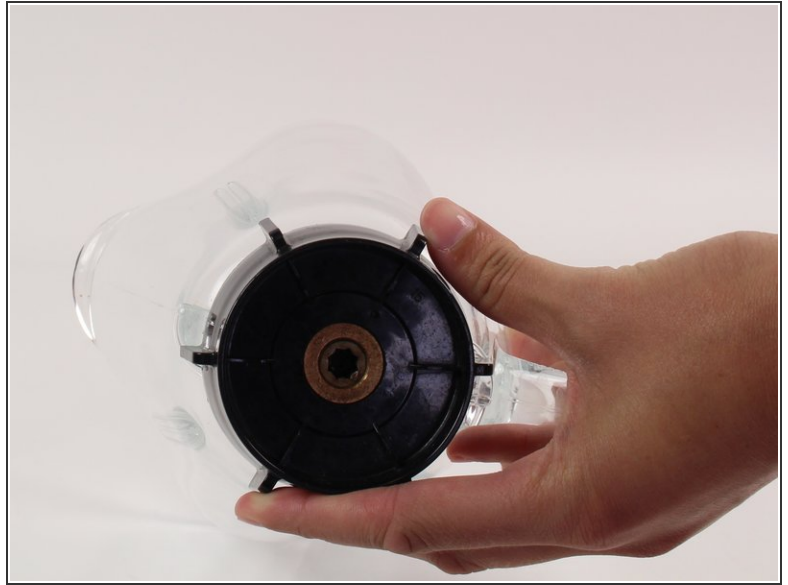

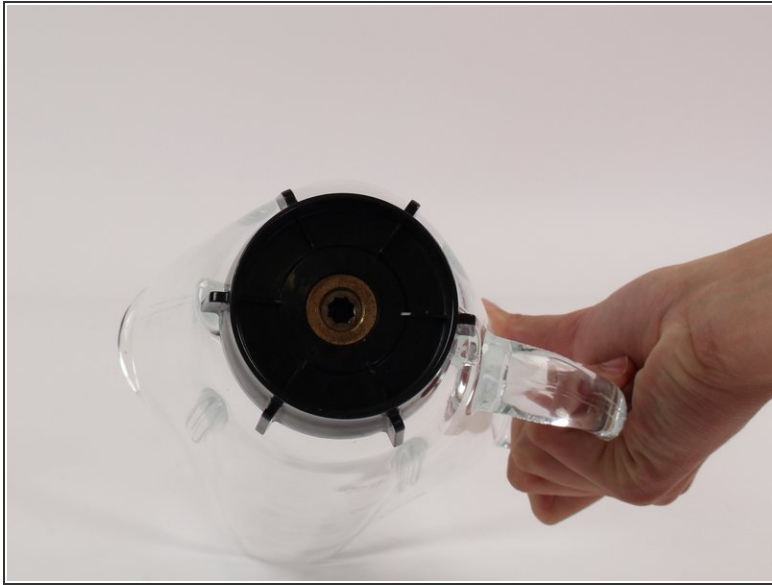

Step 1 — Container

- First, remove the blender container from the Blender Base, by grabbing the handle and lifting up.

Step 2

- Next, remove the lid from the Blender Container.

Step 3

- Flip the container on its side so that the bottom faces you.

- Now rotate the bottom counter-clockwise to remove it from the container.

Step 4

- Now you will see the bottom of the blender blades once the bottom piece is removed

⚠️ Carefully remove the blender blades from the container seeing as they are very sharp and can cut you.

Step 5

- Now your container is separated.
