

# Palm Zire 21 Keypad Replacement

How to replace the Keypad on a Zire 21

Written By: Jeremy Craft

---

## INTRODUCTION

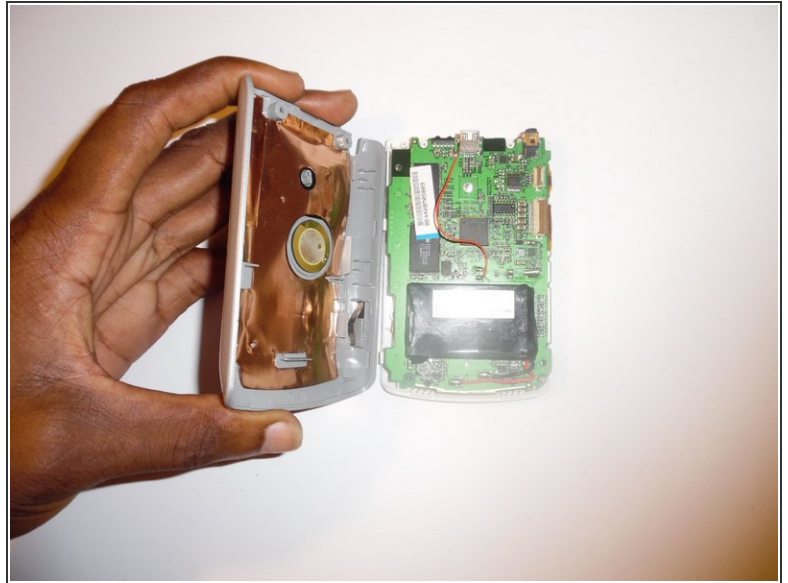

Use this guide to replace the keypad on a Palm Zire 21.

### TOOLS:

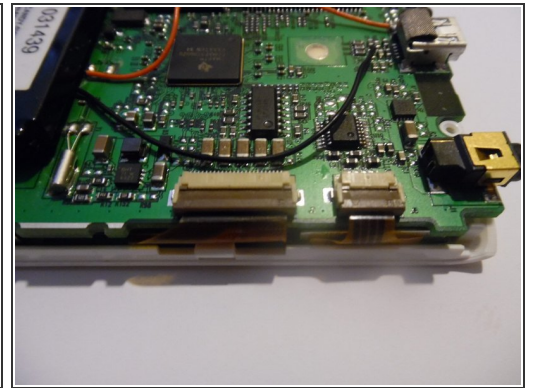

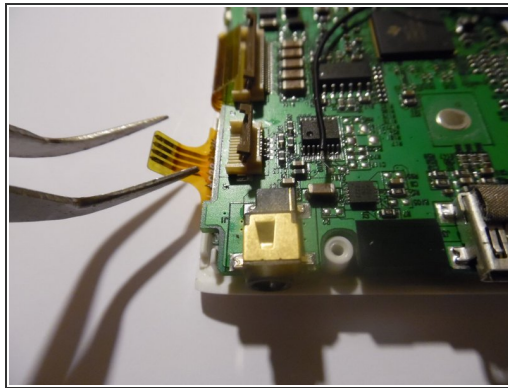

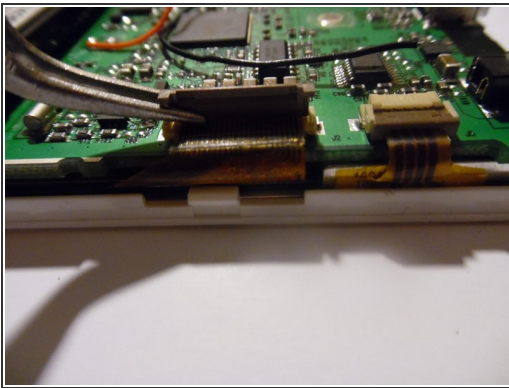

- [Pro Tech Toolkit](#) (1)
-

## Step 1 — Keypad

- Remove the two 0.8 mm screws located on the back of the device.

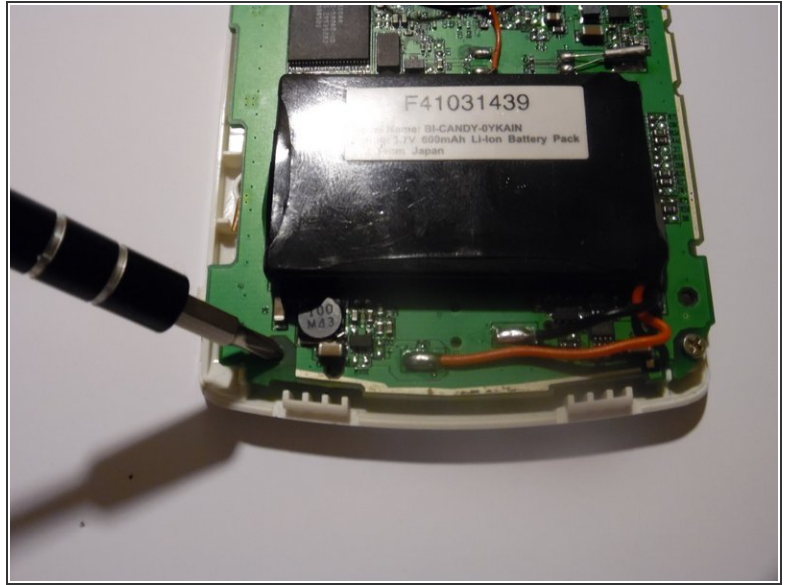

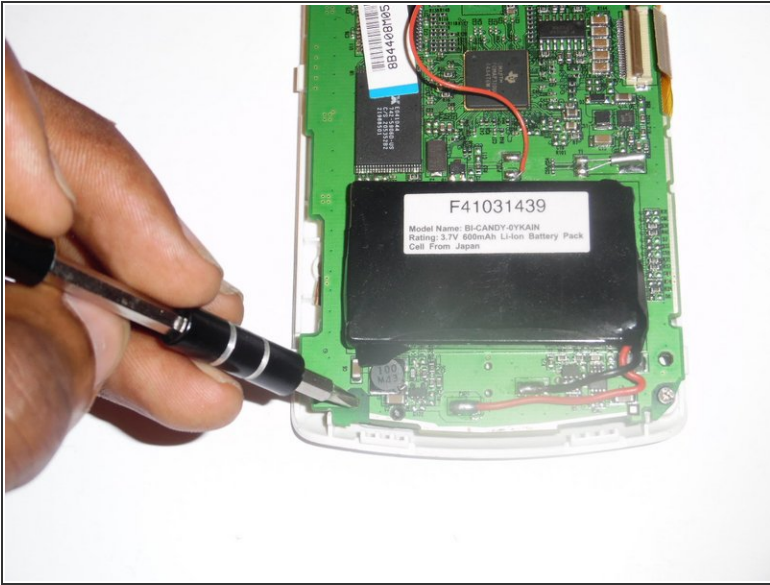

## Step 2

- Using tweezers, or something similar flip up the tab, releasing the wires located under the flap.

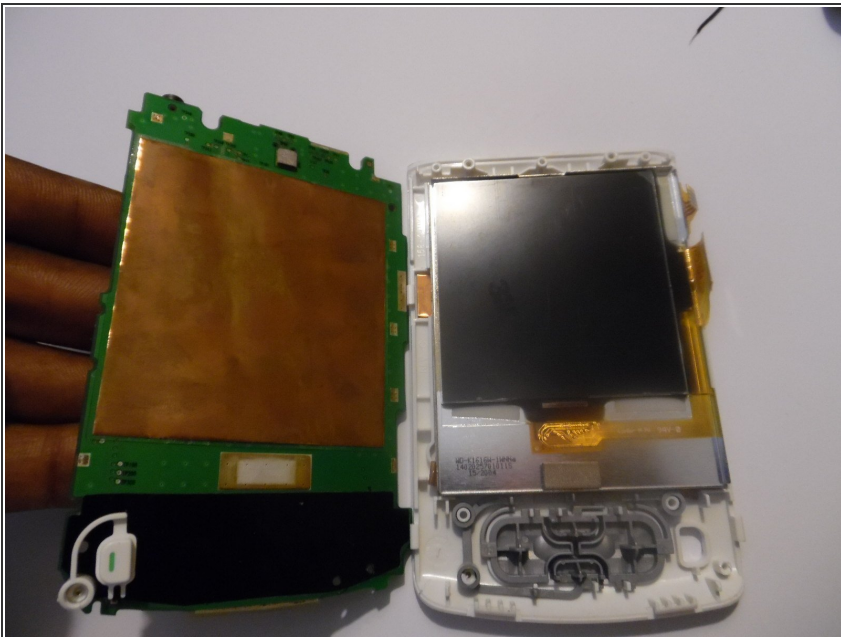

## Step 3

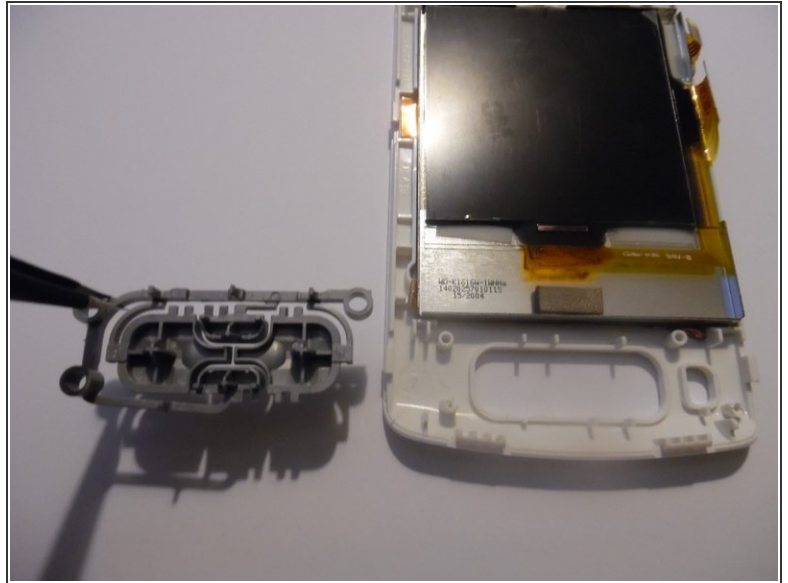

- Remove the two screws located at the bottom of the mothership, using a Philips head screwdriver.

## Step 4

- Carefully remove the mother board by lifting up, exposing the keypad.

## Step 5

- Using tweezers, or something similar remove the keypad from the device and replace with a new one.

To reassemble your device, follow these instructions in reverse order.
