Written By: Andrew Trainor

INTRODUCTION

This repair guide will show you the best step by step procedure of how to replace your back casing on your Panasonic ARC ES-LT3N. The process is very easy!

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Back Casing

- Flip the razor over so the back is facing you.

Step 2

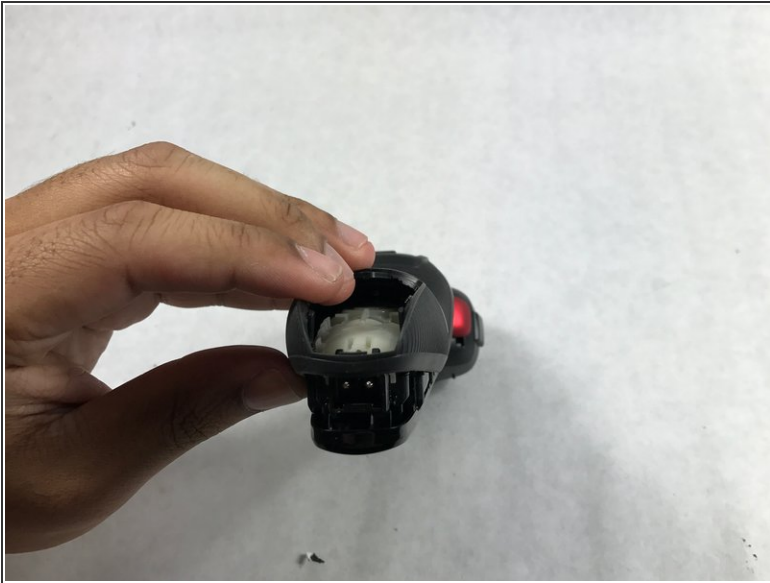

- Using a Phillips #00 screwdriver, remove the 6 mm screw just above the charger port.

Step 3

- Slide the plastic cover at the bottom of the razor downward to remove.

Step 4

- Lift up the rear casing from the bottom of the razor.
- ⓘ This may require you to gently pry it apart with you fingers.
- Lift up the rear casing from the sides of the razor.
- Pull rear casing up and off razor.

⚠ Be careful not to break any plastic!

To reassemble your device, follow these instructions in reverse order.
