Panasonic GU87 LCD Cover removal Replacement
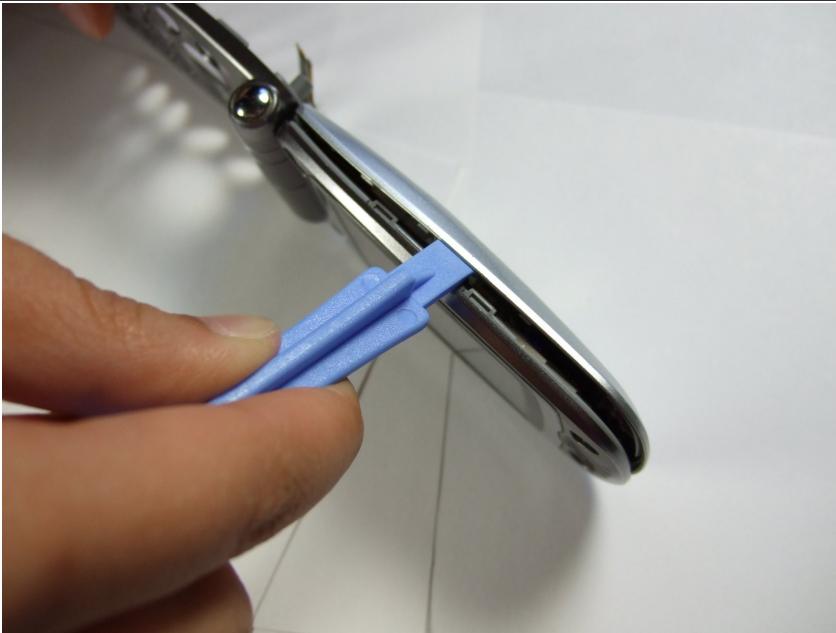

How to remove the LCD cover

Written By: Van

🔧 TOOLS:

- iFixit Opening Tools (1)
- Tri-wing Screwdriver (1)

Step 1 — LCD Cover removal

- Remove the four rubber screw covers from encircled locations.

- Using a #0 tri wing screwdriver, remove the screws previously hidden below the rubber covers.

- If you have difficulties finding this screwdriver, it is commonly sold as a Nintendo Gameboy/Wii screwdriver.

Step 2

- Pry the case open using iPhone tool (as shown), fingernails, small flathead screwdriver, etc.

- Be mindful of location and magnitude of applied force, so as not to damage the case.

To reassemble your device, follow these instructions in reverse order.
