INTRODUCTION

This guide will show you how to remove the back panel of your camera.

🔧 TOOLS:

- Phillips #00 Screwdriver (1)
- Spudger (1)

This document was generated on 2019-09-18 11:23:06 PM (MST).

Step 1 — Battery
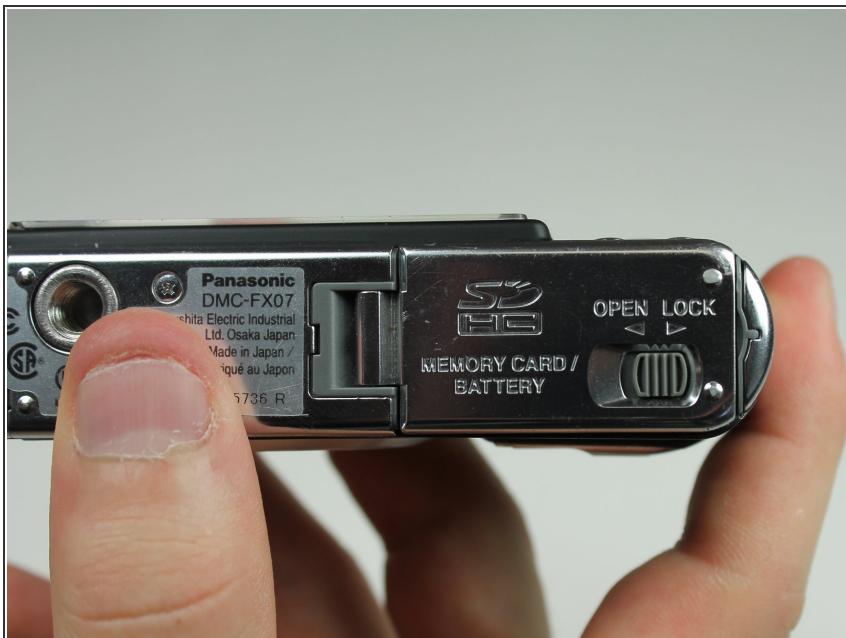

- Move the switch on the battery door to the Open position.

- ⓘ The door will automatically swing open after you let it go.

Step 2

- Push the small gray tab on the top right corner to the left. The battery will pop out slightly.

- Keep your finger clear of the battery when it pops out.

Step 3 — Memory Card

- Push the memory card in and let go.
- (i) The memory card will pop out slightly.
- Pull out the memory card.

Step 4 — Back Cover
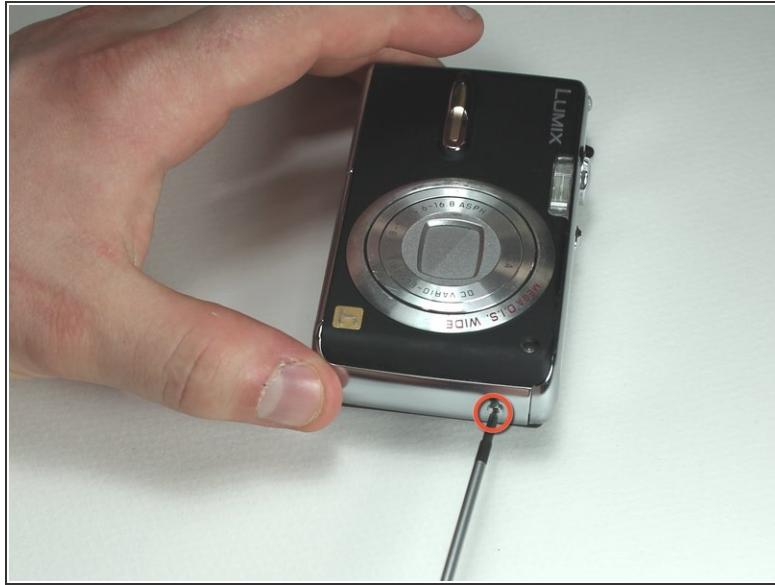

- Unscrew the small screws on the sides of the camera.
- (i) The screws on the left side(#00P, 4.7mm) are longer than the screw on the right side(#00P, 3.3mm).

This document was generated on 2019-09-18 11:23:06 PM (MST).

Step 5
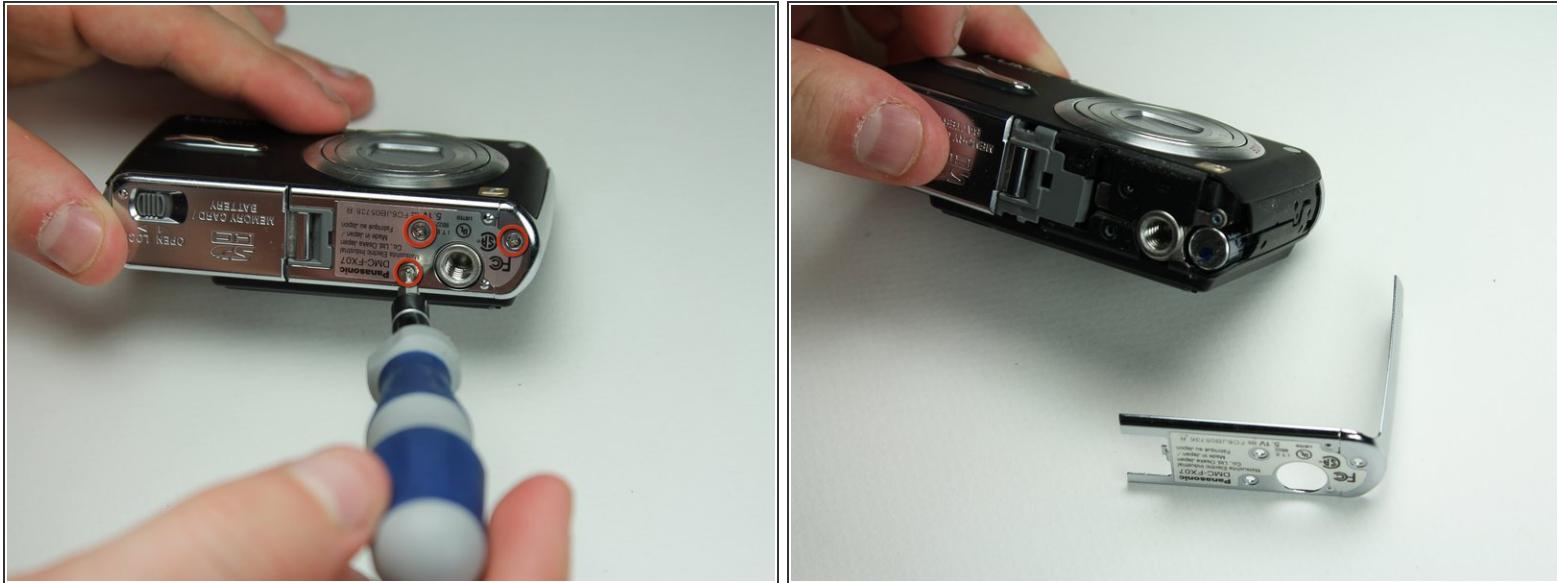

- Unscrew the three small screws on the bottom(#00P, 3.3mm).

- (i) The bottom will fall off.

Step 6

- Lift up the bottom back cover by prying the bottom edge with the spudger.

- Gently lift up the back cover with your hand from the bottom to the top.

Step 7
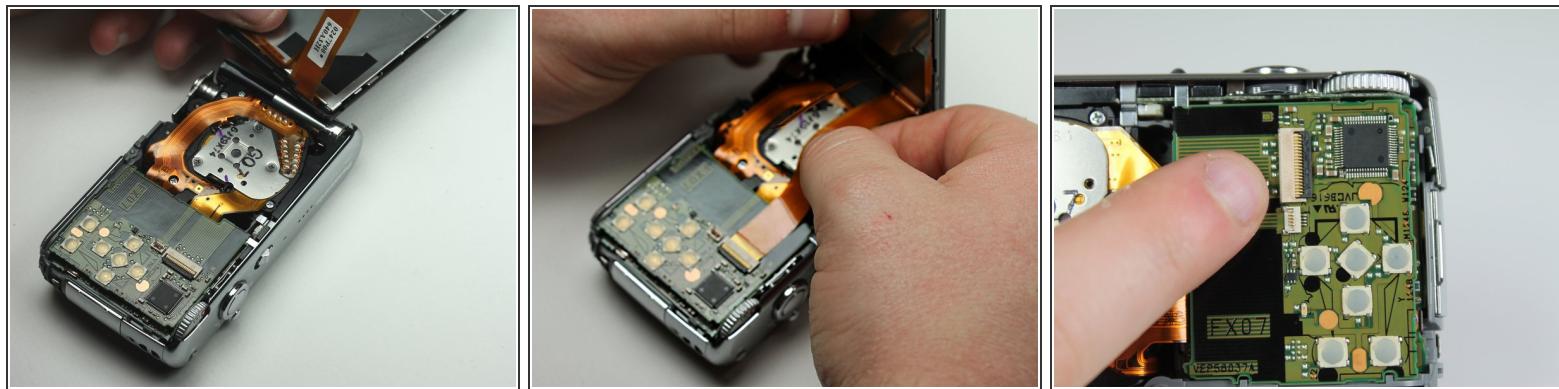

- Lift the tabs on the ZIF connectors.

- The ribbon cables should easily come out of the ZIF connectors.

To reassemble your device, follow these instructions in reverse order.
