Pantech Breakout Battery Replacement

This guide provides the steps necessary to safely remove and replace the Pantech Breakout stock battery.

Written By: Ryan Murphy

⚙ **PARTS:**

- Pantech Breakout Replacement Battery (1)

Step 1 — Removing Back Cover

⚠️ Before proceeding, completely power off phone and disconnect power cords to avoid electrical shock.

- Turn phone over so that the back side is facing up.

- Using a finger, apply moderate pressure to the top of the back cover while sliding the cover down and off.

- Lift and remove the back cover from the phone.

Step 2 — Removing the Battery

- Locate the battery: It is a silver, rectangular object.

- Insert a fingernail into the indent just below the battery about 0.5 inches from the bottom of the phone.

- Then, apply pressure to the battery, pushing up and away from the phone. It will come out easily.

To reassemble your device, follow these instructions in reverse order.
