

Pebble Steel Watch Band Replacement

This guide shows how to replace the watch band on your Pebble Steel.

Written By: MTS

INTRODUCTION

Would you like to switch out the watch band on your Pebble Steel from leather to metal or vice versa? This guide will show you how.

TOOLS:

- [1.5 mm Flathead Screwdriver](#) (1)
-

Step 1 — Watch Band

- Place the watch on its side to expose the side pins.
- Use a 1.5 mm flathead screwdriver to unscrew the pin that is holding the band.

Step 2

- Pull the pin out to remove the band.

Step 3

- Turn the watch to the other side and repeat steps 1 and 2 to remove the other band.

To reassemble your device, follow these instructions in reverse order.
