🔧 TOOLS:

- Paper Clip (1)

Step 1 — Removing Delphi MyFi XM2GO Battery Cover

- Turn over the Delphi MyFi XM2GO Device on its back to start the cover-removal process.

Step 2

- Locate the large button on the top back of the device.

- Press this button at the top while making a firm grip on the battery cover.

- As the button is pressed, move the cover towards the bottom of the device.

- The battery removal tab may pop up during the cover removal process.

Step 3 — Removing Delphi MyFi XM2GO Battery

- Holding the device, grab the tab with thumb and index figure.

- Pull down on the tab to move the battery block a few millimeters towards the bottom of the device to unlock the latch at the top.

- After the latch at the top is disengaged, pivot the battery away from the back and the battery will be free.

Step 4 — Performing Delphi MyFi XM2GO Hard Reset

- After removing the battery cover and battery, locate the reset (indicated by arrow).

Step 5

⚠ Unbend the paper clip, making it straight. CAUTION: The ends may be sharp.

● Carefully insert one end of the paper clip into the hole to reset the device.

To reassemble your device, follow these instructions in reverse order.
