Porter Cable 690LR Base Latch Replacement

This guide will show you the steps to replace the base latch on the Porter Cable 690LR Router.

Written By: Jaymes Ullrich

INTRODUCTION

The replacement process for this part is very simple. It will only take a few minutes, and you can continue with your day.

🔧 TOOLS:

- 2 Hands (1)
- Socket Wrench (1)

Step 1 — Base

- Undo the black latch located on the base of the router by pulling upwards from underneath it.

Step 2

- Twist the base off the router.

- (i) You may need to jiggle the base of the router slightly.

Step 3 — Base Latch

- Locate the 30 mm bolt and nut attaching the latch to the base.

- Use a wrench to remove the nut attached to the bolt, freeing the latch from the base.

To reassemble your device, follow these instructions in reverse order.
