

Protocol DURA VR Remote Batteries Replacement

Replace your dying batteries to bring the dying Drone power back on.

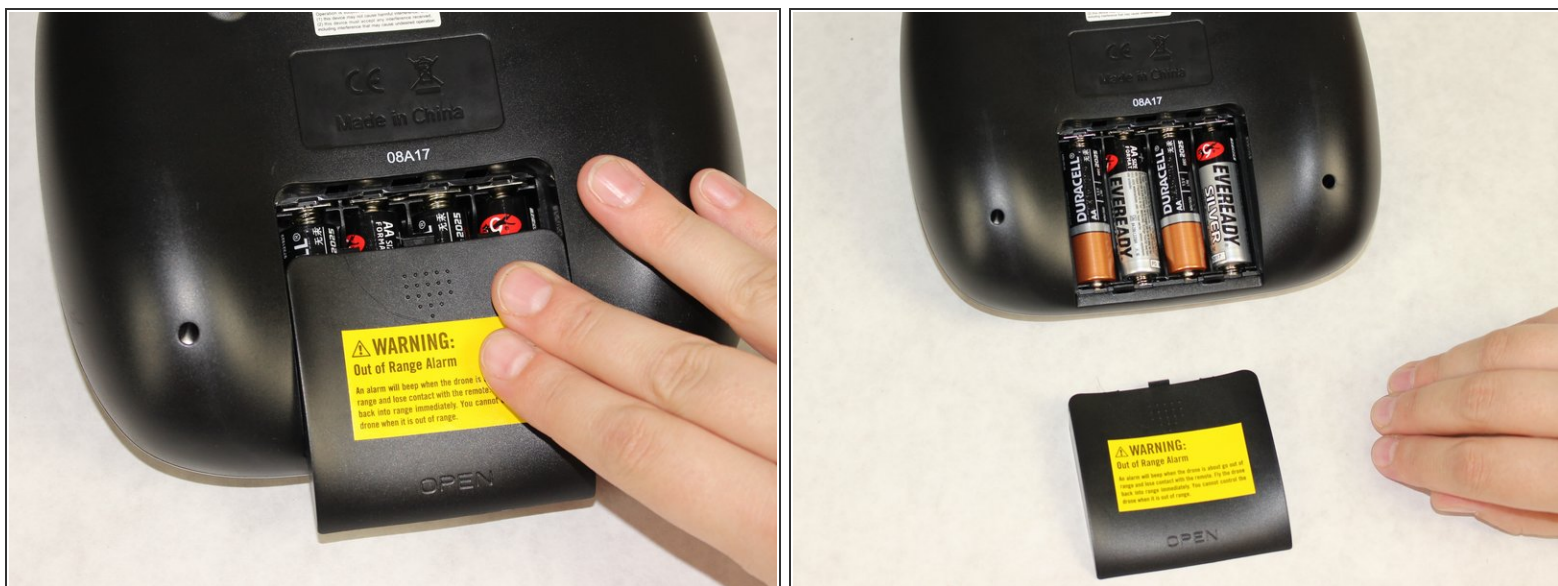

Written By: Kayla Brown

INTRODUCTION

This guide will show you how to properly remove the cover and the batteries from the Protocol DURA VR Drone remote.

Step 1 — Remote Batteries

- Slide the remote battery cover down to reveal the AA batteries.

Step 2

- Remove the AA batteries using the positive side to lift the batteries out of remote.

To reassemble your device, follow these instructions in reverse order.
