

# Protocol Dronium Two Landing Gear Replacement

This guide is for replacing the landing gear on the Protocol Dronium Two

Written By: Edwin Brietz

## INTRODUCTION

This guide is for replacing the landing gear on the Protocol Dronium Two. This repair requires no tools. Spare landing gears don't come with the drone but may be bought from the Protocol website.

## PARTS:

- [Landing Gear \(1\)](#)

## Step 1 — Landing Gear

- Turn device off by moving the selector switch to the left.

## Step 2

- Place one hand on the drone and carefully remove the landing gear with the other hand.

**⚠** Be gentle as to not break off the studs on the landing gear.

To reassemble your device, follow these instructions in reverse order.
