

Pyrus PY21S03211 Battery Replacement

How to replace your battery

Written By: Danielle Hadaway

INTRODUCTION

Battery replacement is a simple replacement for the Pyrus video camera, and the first thing anyone should do before taking the device apart. Check with the [troubleshooting page](#) to see if your device battery needs to be replaced.

Step 1 — Battery

- Turn the video camera upside down so the bottom of the device is visible.

Step 2

- Pull back the tab to reveal the battery compartment.

Step 3

- Pull back tab that is holding in the battery in place and remove the battery from the device.

Step 4

- Insert replacement battery.

To reassemble your device, follow these instructions in reverse order.
