INTRODUCTION

The reset button resets the tablet in the event of a crash. For this guide you will need a Phillips screwdriver.

🔧 TOOLS:

- Phillips #0 Screwdriver (1)
- iFixit Opening Tools (1)

Step 1 — Cover

- Remove all the 8 mm Phillips head screws on the side and back of the device.

Step 2

- Pry off the cover by sticking a wedge in between the screen and the cover.

  ⚠ Be careful with the plastic because it can easily break.

- Once the cover is partly removed, use your hands to take off the rest of the cover.

Step 3 — Reset Button

- Locate the power button on the cover.

Step 4

- Carefully pull up on the power button. There are two pins holding it in.

- Remove the power button.
